Save $172.19 on this nationally advertised Barkah Studio Sleeper Sofa, full reclining Chair and Matching Chair!

THE SOFA - Just consider this, the sofa makes a big double bed. "You sleep on over 4" of firm, moulded foam supported by a sturdy spring base. For style, for quality, for comfort, we think this sofa will compete with any $500 Contemporary sofa you can buy today.

THE RECLINING CHAIR - Believe it or not, the full 3-way Contemporary reclining chair is included in the group. It has a high leg and swivel base and tall wooden feet all clad in vinyl. Who knows what price we could get on this recliner for the retail at least be $200.

THE MATCHING CHAIR - It's big, well styled chair with white back cushions and white one-mold foam with fine white vinyl trim. All three pieces are covered in a basket weave fabric.

There is only one reason we are closing out our remaining stock. The manufacturer is making some style changes in this group for the new year.

**Moon Has 'Safe Spots'**

WASHINGTON, D.C. — The American space agency is preparing to establish a network of safe spots on the moon for astronauts to land in case of emergency. These locations will be strategically placed to ensure the safety of astronauts during their missions.

**Town Of Death Found**

Police have discovered a town on the moon that has been declared a "death town" due to high levels of radiation. The town, named "Deadville," has been abandoned and is now a ghost town. Attempts to establish a base in the town have been unsuccessful due to the radiation levels.

**Poison Gas Raid By Egypt Charged**

The Egyptian government has been charged with a poisoning gas raid on the moon base, which has led to the evacuation of all personnel. The investigation is ongoing, and the accused have denied any wrongdoing.

Market Up Again

NEW YORK (CBS) - The market may have ended a
11-day losing streak yesterday, but some analysts said the
bull market in stocks may be in jeopardy.

The Dow Jones Industrial Average finished at 873.70,
up 2.70 points, and the New York Stock Exchange
Composite Index at 213.99, up 1.07 points.

However, some analysts cautioned that the market
may be in for a correction.

"The market has been in a bull market for a long
while," said one analyst. "But now we're seeing a lot
of selling pressure."
