Radio Peking Claims Red Army On Alert

RKO (UPI) - The Chinese government has demanded that the United States immediately withdraw all military aid to Taiwan and that the United States recognize the People's Republic of China as the only legitimate government of China. The demand was made by Premier Zhou Enlai in a telephone conversation with President Lyndon B. Johnson. Zhou also said that the United States should stop sending military aid to Taiwan and that the United States should recognize the People's Republic of China as the only legitimate government of China.

The broadside was delivered in a speech by Premier Zhou Enlai to the National People's Congress, which began its session today. The speech was broadcast over the State-run Radio Beijing.

The Chinese government has repeatedly made clear its determination to reunify the Chinese mainland and Taiwan.

The United States government has steadfastly refused to recognize the People's Republic of China as the only legitimate government of China.

The Chinese government has made it clear that it will not tolerate any interference with its sovereignty.

The United States government has steadfastly refused to recognize the People's Republic of China as the only legitimate government of China.

The Chinese government has repeatedly made clear its determination to reunify the Chinese mainland and Taiwan.

Sometimes soon you may walk up to your favorite Braniff ticket agent, ask her for a ticket to Lima, Peru, and find that she's booked you on an airliner called Panagra International.

Our best advice to you is to get on the plane and ask questions later.

We think you won't be satisfied with the answers. Because the recent merger between Panagra and Braniff International was cleverly designed to make your life a whole lot easier.

There's one airline that's better than two.

What we have now is the best of both.

In the old days, Panagra and Braniff very nearly doubled each other's routes and departure times (either like the way competing television networks put up their best shows at the same hour). The merger will allow us to spread these flights out evenly, giving our passengers a greater number of departure times from which to choose.

There are other advantages.

For years, we've been securely jealous of Panagra's communications system which was just a shade quicker and less complicated than ours. So we're adopting it.

At the same time, we're always looking at our own U.S.-based maintenance crew. We'll continue to use them.

We're adding about 1300 of Panagra's personnel to our own staff of 600. Together, these people have a total of 95 years of experience serving South America. They know what it's all about.

We'll also add Panagra's DC-8s to our own fleet of Boeing 707s and 727s. Intercontinental jet aircraft. By fall, this will give us 75 aircraft serving the U.S. and Mexico. It will also give us the biggest fleet between North and South America.

To put the finishing touch on the cake, our flight attendants, bright young jobs and plush interiors go right along with the deal.

A breakthrough. 30 flights a week to South America.

We have expanded our gateway cities to other major cities in the West Coast. Our new points of departure will include New York, Miami, San Francisco, Los Angeles, Houston, Chicago, Dallas, San Antonio, Washington, D.C., and Tulsa.

From these new departure points, we will fly to 16 countries in South America:

22 flights a week to "Panama City/ Panama:

7 to Bogotá, Colombia
2 to Cali, Colombia
8 to Guayaquil, Ecuador
2 to Quito, Ecuador
21 to Lima, Peru
4 to La Paz, Bolivia
1 to Antofagasta, Chile
1 to Santiago, Chile
2 to Asunción, Paraguay
9 to Buenos Aires, Argentina
3 to São Paulo, Brazil
And 3 to Rio de Janeiro, Brazil

In most cases, we will offer more service to each of these cities than any other airline. We will certainly have a wider network of service.

Jet freighters for South America.

In addition to our new passenger service, we will expand our cargo schedule from New York and Miami to include DC-8 jet freighters. This will triple our cargo capacity and provide more service to more South American cities than any other airline. And for the first time, we will have a nationwide Air Freight System which will let you book your cargo's flight in the same way you would book yourself. This cargo space is computer controlled, so it's an extension of a reservation mix-up. We'll be one of the first airlines to do this.

The complete South American timetable.

That's about it. But before you turn the page, take a look at our new schedule effective February 1. To those of you who fly to South America often, it will make more sense than anything else we can tell you.

Braniff International flies to South America.

BROADLOOM CARPET CLEARANCE
Narcotics Education Goal of Lecture, Action Group

By FRED KRAHAN

A crisis in the war on narcotics was the topic of a recent lecture by麗the Action Group of the National Narcotics Education Foundation. The lecture was held in the auditorium of the High School.

The lecture was conducted by Mr. John Smith, a well-known speaker on the subject of narcotics. He emphasized the need for education and awareness in the community to prevent the spread of narcotics. He also mentioned the importance of early intervention and treatment for those already addicted.

The Action Group has been active in the community for several years, organizing events and workshops to educate people about the dangers of narcotics. They have also worked with local schools to integrate education about narcotics into the curriculum.

Workshop Produces Flowers

A workshop that produced flowers was held in the auditorium of the High School. The workshop was conducted by Mrs. Sarah Johnson, a well-known florist in the community. She taught participants how to create beautiful arrangements using fresh flowers.

The workshop was well attended, with many participants expressing their appreciation for the opportunity to learn a new skill. Mrs. Johnson emphasized the importance of using fresh flowers in arrangements, and provided tips on how to care for flowers to ensure they last longer.

Road To Addiction

A presentation on the road to addiction was held in the auditorium of the High School. The presentation was conducted by Dr. Robert Brown, a well-known psychiatrist in the community. He discussed the factors that contribute to addiction and the importance of early intervention.

Dr. Brown emphasized the need for individuals to seek help early on if they are struggling with addiction. He also discussed the various treatment options available, including medication-assisted treatment and therapy.

Legislature Due Visit From PTAs

The Autonomous Solutions Board has scheduled a visit from the PTAs in the coming weeks. The PTAs will be meeting with members of the Board to discuss issues related to school funding and education policy.

The visit is expected to be well-attended, with many PTAs expressing their support for increased funding for schools. The Board members will be available to answer questions and provide information about their plans for the upcoming school year.
