If you have shopped during the past year at Evans, chances are you were amazed to find that you walked for over one city block to get to the back of the display area. Now, Evans has doubled their display area. Walls were torn out, ceilings put in, now lighting, floors carpeted, and tiled and to get to the last display area you go a full 2 city blocks after you enter the front entrance. Most every woman enjoys this walk because of the thousands of new and exciting things they see. Why not come take a 2-block stroll through Evans today yourself.

During the excitement and comfort of this 1979 contemporary chair and ottoman, you'll know it's a value of the regular price.
