The state has recently enacted a law which requires all students at OSU to live in residence halls. This is a significant step in the right direction, and it is to be hoped that other universities will follow suit.

Will just any milk do for your children?

Every day, The Brown Company serves a lot of cow's milk, often to people who claim that they want the best milk money can buy for their children. But why is milk so important to a child's healthy growth? To produce the best milk, our farm managers make sure the cattle are fed properly, handling them as little as possible. The result is the best milk, providing the energy and nourishment that children need to grow. Again and again - 24 hours a day - our dairy herds produce fresh, pure, quality milk. The same care at the Brown's Milk stands, all connections and processing, and our entire crew in our barns, and our dairy herds in the field. We offer the finest product, to bring you the quality you expect from your milk producer. Brown's Milk. They say it's the best.

CC Slate Busy

The More Creative Club of Duplin County held their second meeting on Monday night, March 16, at 7:30 P.M. The meeting was held at the Community Center in Carlin, with Miss Mary B. Smith serving as hostess.

The purpose of the meeting was to discuss and plan the upcoming activities for the club. Miss Smith reminded the members of the importance of active participation in the community and encouraged them to get involved in various projects.

A motion was made and seconded to form a planning committee to work on the upcoming events. The committee was to be comprised of Miss Smith, Mary Hocke, Mrs. Alice Carr, and Mrs. Helen Randle. They were to meet on Monday, March 23, to begin their work.

The club members then moved on to discuss other matters. Miss Smith reported on the progress of the new community center and the need for additional funding. The members agreed to hold a fundraiser to help cover the costs.

A brief discussion followed on the state of the school system and the need for improvements. Miss Smith suggested that the club could help by organizing a petition to present to local officials.

The meeting ended with the members looking forward to the upcoming events and the possibility of expanding the club’s reach to other communities.

THE JOURNAL'S GALLERY OF FAME
In Appreciation For Recent Service Or Benevolence

The Journal's Gallery of Fame was created to recognize and honor individuals who have made significant contributions to the community. This week, the Journal would like to spotlight Dr. John Smith, a local philanthropist.

Dr. Smith has been a resident of the city for over 30 years and has been actively involved in various community projects. He has contributed generously to local schools, hospitals, and non-profit organizations.

In 2010, Dr. Smith established the John Smith Foundation, which provides scholarships to deserving students. To date, the foundation has awarded over $1 million in scholarships.

Dr. Smith's generosity and commitment to the community have not gone unnoticed. He has received numerous awards and recognitions for his contributions and has been a role model for others to follow.

The Journal celebrates Dr. Smith's dedication and encourages others to continue to support the community in similar ways.

OU Art Museum Exhibits
Machine Age Satirization

The OU Art Museum is currently exhibiting "Machine Age Satirization," an exhibition showcasing the work of local artist Tom Smith. The exhibition features a collection of paintings and sculptures that satirize the modern world and its various technologies.

Smith's work is known for its sharp commentary on contemporary issues, such as the effects of technology on society. His pieces often use humor and irony to challenge the viewer's perspective.

The exhibition is open to the public from March 20 to April 20. Admission is free, and the museum is open daily from 10 a.m. to 5 p.m.

around the city

Don't you just love our city, folks? It's a beautiful place to live and work. From the stunning architecture to the bustling streets, there's always something to do.

One of my favorite things about living here is the way people support local businesses. It's wonderful to see so many shops and restaurants thriving.

And let's not forget about our wonderful schools. Duplin County Schools is truly one of the best in the state, if you ask me. The teachers are dedicated and the students are thriving.

In conclusion, I think we are incredibly fortunate to live in such a great place. So let's all do our part to make it even better.

1000 Best Ideas for the City Hall Renovation

I believe that the City Hall needs some modernization. It's getting a bit run down and could use a facelift.

I propose that we make a few changes to the building. First, let's add some greenery to the outside. We could create a small park or garden area.

Secondly, let's update the interior. We could install new lighting and fixtures to make the space brighter and more inviting.

Finally, we could consider adding some fitness equipment to the building. It would be a great resource for the community.

Overall, I think these changes would greatly enhance our city hall and make it a more welcoming place for everyone.
