A miracle has happened to coffee

...this is it!

Cain's is First to bring this new freeze-dried coffee to Oklahoma City

Cain's NEW FREEZE-DRIED COFFEE is a new kind of coffee, unlike any you have ever used. A new process enables you to brew and enjoy this coffee right in your own home, even after it's opened. This means you can enjoy coffee without the need for refrigeration.

SECOND...the fresh ground coffee is freeze-dried instantly. Quick as a flash, the coffee is frozen in 30 minutes, captured in its liquid form, and then subjected to the heat of a vacuum. The result is a coffee that has all the flavor and aroma of fresh-ground coffee, but without the need for refrigeration.

THIRD...the beans are ground at the point of sale. This means that each bag of Cain's Freeze-Dried Coffee contains beans that have been ground specifically for you, ensuring the freshest possible coffee.

FOURTH...only pure coffee crystals are left. These concentrated, freeze-dried coffee crystals are what you are buying when you purchase Cain's Freeze-Dried Coffee, not the ground coffee used in most packaged coffee.

FIFTH...so the miracle happens. Just add water or tea to the coffee crystals, and you have the same great-tasting coffee you would get from freshly ground coffee.
