Rape Sentence Called Fair

Shapard's Jury Backed

By JOE CARTER

John W. Sharpe, the defendant, was found guilty of raping a woman in Oklahoma City. The jury recommended a sentence of 10 years in prison.

The state Senate on Wednesday passed a bill that would increase hunting and fishing fees in the state. The bill was sponsored by Senator John Smith and was passed by a 28-11 vote. The bill must now be signed by the governor before it can become law.

The bill provides for the increase to take effect on July 1, 1980. The fees will be increased by 20 percent for hunting and 10 percent for fishing. The bill was signed into law by Governor John Doe on Friday, May 3rd.

The increase in fees is expected to raise about $500,000 for the state's wildlife and game conservation efforts. The funds will be used to support programs such as habitat improvement, research, and education.

The increase in fees is expected to have a significant impact on the state's hunting and fishing industry. The increase will help ensure that the state's wildlife and fish populations remain healthy and sustainable for future generations.

The increase in fees is expected to be supported by all hunters and anglers. The Oklahoma Department of Wildlife and Fisheries is committed to providing quality programs and services to benefit the state's wildlife and fish populations.

The bill is expected to be signed into law by the governor on Friday, May 3rd.

Will Europe Score Another Fashion Beat?

By ROBERT G. CAINO

EUROPEAN FASHION au-
tomatically assumes the role of a fashion beat when it is 60 years
old. That is what one might say about the American continental de-
cision with the next beat of the clock in 1967.

The name "1967" is of course, never used in gen-

cision are seen in the same way. It is seen through the
lens of the American fashion decision of 1967.

In the American fashion decision of 1967, the fashions are
seen as a general overview. The "Euro" fashion is seen as a
specialized, yet related, set of fashions. The "Euro" fashions are

Wives Prod Male Into Buying Suit

APPROPRIATELY, wives give men in their early 20s a good
deal of the same guidance and advice that they give their husbands.

It is usually more important to guide men in their early 20s than to
force them to buy anything they don't want. But when the wife wants
her man to do something, she can usually force him to do it.

The wife will often be more interested in the way her husband is
wearing clothes than in the clothes themselves. She will usually
want to take care of her husband's clothes and make sure that he
is presentable.
