Raft Trip Begun By Doughty Duo

Two members of Oklahoma State University's Interfraternity Council, Don Doughty and John Doughty, began their 24-foot raft trip down the Canadian River today. The duo, both members of the Sigma Alpha Epsilon fraternity, plan to paddle from Doughty Bridge to Fort Smith, Ark., in about 20 days. The trip is a personal challenge for the brothers, who hope to raise $1,000 for the Oklahoma Children's Hospital. Don Doughty is a senior computer science major and a member of Sigma Alpha Epsilon fraternity. John Doughty, also a senior, is a member of Sigma Chi fraternity.

Korea Border Battle Flares

USA, South Korea, China and Russia have agreed to hold high-level talks in an effort to resolve the North Korean crisis. The talks, which will be held in Beijing, will be attended by representatives from the four countries. The talks are expected to focus on the North Korean nuclear program and the issue of reunification of the Korean peninsula.

Escalation Anxiously Hyped

A new escalation in the Korean crisis has been anxiously hyped by the media. Reports indicate that North Korea has launched a new missile test, which is expected to be launched early next week. The test is expected to be a significant escalation in the ongoing crisis, and it is feared that it could result in further military action.

State Law Agency Merger Supported

The state law agency merger has been supported by the Oklahoma House of Representatives. The merger will combine the Oklahoma Corporation Commission and the Oklahoma Department of Agriculture into a single agency. The merger is expected to save the state millions of dollars, and it is hoped that it will lead to improved efficiency and service to the public.

Students: Seek And You May Find

First Oil A Series

In order to encourage students to seek out opportunities, the university has launched a new program called "Seek And You May Find." The program is designed to help students identify and pursue opportunities that are available to them, such as internships, research projects, and volunteer work. The program will be led by a team of experienced mentors who will guide students through the process.

First Oil A Series

Hair cutting services were held Wednesday night in the Student Center. Free haircuts were provided by local barbers, and students were able to get their hair cut for free. The event was well-received, and many students expressed gratitude for the service.

Dental Care For Indians Slated Again

The dental care for Indians program has been slated again for the next fiscal year. The program, which is administered by the American Indian Health Care Association, provides dental care to American Indians who live in rural areas. The program is funded by the federal government, and it is expected to continue to provide essential dental care to those in need.

Patti

Dentist whose practice was taken over by the state

Patti was a dentist whose practice was taken over by the state in 1996. The state wanted to improve the quality of care for the patients, but some of the patients were upset that their dentist had been taken away from them.

State Law Agency Merger Supported

The state law agency merger has been supported by the Oklahoma House of Representatives. The merger will combine the Oklahoma Corporation Commission and the Oklahoma Department of Agriculture into a single agency. The merger is expected to save the state millions of dollars, and it is hoped that it will lead to improved efficiency and service to the public.

A miracle has happened to coffee...

...this is it!

Cain's is First to bring this new freeze-dried coffee to Oklahoma City

Cain's FREEZE-DRYED COFFEE is a new kind of coffee. Unlike any you have ever tasted, it gives you the flavor, aroma and preservable coffee right in your cup. Try it now, then you can make coffee as good as the best you can perk...automatically.

First...we start with freshly-picked coffee beans. Then, our freeze-drying process preserves the flavor and aroma of freshly-picked coffee. Available Only in Metropolitan Oklahoma City Area.

Why Pay MORE?

Don't pay more for those expensive service and maintenance policies!

When you buy a washer and dryer from Evans, you're buying a Frigidaire! The finest laundry equipment made. If you do have any kind of problem, we will fix it for 5 full years. This means that when you pay $299 at Evans, that's it! For five years, we guarantee that any repairs that must be made, we will pay for! Other washers and dryers have to be sold with a "service and maintenance" policy. In most cases, this policy costs you $120 for the washer and another $100 for the dryer. You end up spending almost as much for the policies as you do for the laundry pair! Don't pay more- and have the quality and assurance of Frigidaire!

$299

These are no loaders models
It is what we think you need to wash and dry your clothes. We have a full range, from the smallest one size to the largest size. But, this pair is enough!

Why Pay MORE?

Don't pay more for those expensive service and maintenance policies!

When you buy a washer and dryer from Evans, you're buying a Frigidaire. The finest laundry equipment made. If you do have any kind of problem, we will fix it for 5 full years. This means that when you pay $299 at Evans, that's it! For five years, we guarantee that any repairs that must be made, we will pay for! Other washers have to be sold with a "service and maintenance" policy. In most cases, this policy costs you $120 for the washer and another $100 for the dryer. You end up spending almost as much for the policies as you do for the laundry pair! Don't pay more and have the quality and assurance of Frigidaire!

Evans Home Furnishings

Dips Are Excellent For Appetizer Course
Cowboy Hall Names John Wayne Trustee

The recent selection of John Wayne as a Trustee of the Oklahoma State University booster club is another indication of the regard in which he is held by the citizens of Oklahoma.

45th Leaves Saturday

The Copper Mill in Norman will provide a fitting setting for the 45th Leafing of the Oklahoma College of Education and Business. Mr. and Mrs. R. H. B. Loomis, President of the University, will preside at the affairs.

Glue Sniffers Suffer

One of the most common misconceptions about glue is that it is a solvent. In reality, glue is a solid substance that is applied to surfaces to hold them together. It is a material that is used in a variety of different industries, including construction, manufacturing, and printing.

Art Ability Is Indicated

One of the most important aspects of art is the ability to communicate. This ability is often indicated by a person's level of creativity and their willingness to take risks. It is also important to note that art ability is not limited to those who are trained in the field of art. Anyone who has the ability to create something beautiful and original is demonstrating their art ability.

OSU Math Senior Gets Harvard Prize

The OSU Math Senior who recently received a prize from Harvard University is a testament to the importance of mathematics. Mathematics is a fundamental subject that is used in a variety of different fields, including science, engineering, and economics. It is also a subject that is often associated with intelligence and problem-solving.

Students Create Defensive Driver

The students who recently created a defensive driving course are a shining example of the power of education. By developing a course that is designed to help people drive more safely, these students are demonstrating their commitment to helping others.

Team Gives 'Fats' Report

The team that recently gave a 'Fats' report is a great example of the importance of teamwork. By working together to create a report that is informative and well-researched, these team members are demonstrating their commitment to excellence.

Glue Sniffers Suffer

One of the most common misconceptions about glue is that it is a solvent. In reality, glue is a solid substance that is applied to surfaces to hold them together. It is a material that is used in a variety of different industries, including construction, manufacturing, and printing.
