Don't Dig Grave With Your Teeth

By EMERSON BROWER

* \[\text{As the saying goes...}\]

There's no time limit on how long a tooth can be pulled. The process is usually completed within minutes. But don't try to do it yourself, no matter how skilled you may be. A professional dentist will do it faster and smoother. Only a trained professional can remove a tooth correctly. Even with the latest surgical methods, it's still a delicate procedure. A dentist will remove a tooth with ease. If you attempt it yourself, you may end up with more problems than you started with. So, let the professionals do their job. It's not worth the risk.
