 Welch Faces Quiz In Bid For Parole

Former Oklahoma Supreme Court Justice and former state Attorney General Bob Webster, who is running for Oklahoma State Senator from District 19, was questioned by the Oklahoma County Board of Pardons and Paroles on Wednesday, February 24, 1965, in the Board's hearing room in the Capitol Building. The question was whether or not he should be granted parole.

The hearing lasted for about an hour, during which time Justice Webster answered questions on a variety of subjects, including his past criminal record, his current financial status, and his political affiliations.

Justice Webster is a former state Supreme Court Justice who served from 1956 to 1964. He is a member of the Democratic Party and is running for a seat in the Oklahoma State Senate.

The Oklahoma County Board of Pardons and Paroles is responsible for deciding whether or not an individual should be granted parole. The board consists of five members, who are appointed by the governor and approved by the Oklahoma Senate.

THE WASHER

Every day we look at the washer as if it should be small data. Indeed, Evans will not try to sell you a higher price washer than you have because we honestly believe we're the ideal washer for every family and every wash job that can be done by one machine. We regularly make higher price washers and lower price washers. The basic idea of a wash is the same, but we still sell them but we still only recommend this washer and none others.

Even if you could by a washer for $59.95 and had to pay $125.00 for a 5 year service policy, it would cost you more than this one, and what kind of a washer would you get for $59.95?

WHAT IS DURABLE PRESS?

Durable Press is a new development from the North and South, Inc.

The Difference is basically in the Final Wash. North and South Inc.
uses a special treatment which cleans the fabric and removes the
remaining starch. The result is a fabric that is treated with special
chemicals to reduce wrinkling and require less ironing.

THE GUARANTEE

The manufacturer has guaranteed that the washer will last you
5 years after purchase. If it does not, you can return it for a full
refund. The guarantee is honored by all major appliance retailers.

IF YOU DON'T READ ANY OTHER
PART OF THIS AD - READ THIS
BEFORE YOU BUY! ASK?

For instance, if you purchased a
new car, would you accept the
manufacturer's guarantee without
reading the fine print? Of course not.

Why don't all companies do this?

Any company that guarantees a product should guarantee the product
for a full year, and every company should guarantee the washer for
one year. Why? Because we believe in our product and the manufacturer
wants you to be happy with your purchase.

SAM SAYS: "ONE HEAR YOU!"
"Walking Cattle" Started After Civil War

After the Civil War, the need for cattle became apparent. The war had caused a significant decrease in the cattle population, and as a result, the demand for beef and other cattle products increased. This led to the development of new methods for herding cattle, including the use of wagons and wagons. This, in turn, led to the development of new breeds of cattle, such as the Hereford and the Charolais. These breeds were known for their high productivity and resistance to disease, and they quickly became popular among ranchers. As a result, the cattle industry grew significantly, and the demand for beef continued to increase. Today, the cattle industry is one of the most important industries in the United States, and it provides jobs for millions of people.

THIS AD IS DESIGNED TO INFORM

All good advertising is informative. It tells every important fact about the offer made and does not leave out any important fact.

If this ad leaves any question in your mind unanswered call us and we will answer it in our next ad.

BECAUSE We believe our washer offer can actually save you hundreds of dollars when compared with most other total washer offers you could buy!

THE WASHER

Every fact we have on this washer is included as it should be on all good advertising. We don't try to sell you a higher price washer when you come in because we honestly believe this to be the ideal washer for every family and every wash job that can be done by any machine. Yes Frigidaire makes higher price washers and lower price washers. We have them all and will sell them but we still only recommend this washer and none other.

This is Frigidaire Jet Action!

DeLuxe Model WAL Single speed model (400 RPM spin). 3 fabric cycles, white only.

WHAT IS DURABLE PRESS?

Durable Press is a significant improvement over the Wash and Wear concept. The difference is basically in the finish. Wash and Wear garments are made by treating fabrics before they are constructed. Durable Press fabrics, however, are given a heat-irradiation treatment after the garment is constructed. Good quality Durable Press clothing requires little or no ironing—irons heat correctly and wrinkles disappear. Frigidaire is ready to help these revolutionary fabrics deliver total performance. Every 1967 Frigidaire washer and dryer has the typical DPC right on the control panel. And the system is backed with special Durable Press cycle and care tools.

Even if you could by a washer for $59.95 and had to pay $125.00 for a 5 year service policy. It would cost you more than this one, and what kind of a washer would you get for $59.95?

Hundreds of Dollars.

For instance if you answered an ad on a low price washer, but one wanting twice as much money is recommended when you shop and ask for the least. Look out chances are the low priced advertised model was just built to get you in and sell you a higher price model.

Ask about the guarantee! After all its your money that is going to pay for the washer. Just come right out and ask if the washer you are looking at carries a full and total guarantee for 5 years on all parts and all service. That's what we do, and it gives you the assurance of your guarantee on the washer. Add that to the price of the washer plus interest if you finance it and see if it doesn't double Evans price.
