State Editors Say

Forty years ago, there was a time when black Americans had no say in their own destinies. They were denied the right to vote and were subjected to segregation. They were not given the opportunity to participate in the democratic process. It was a time of oppression and inequality. But times have changed. The Civil Rights Movement of the 1960s brought about significant changes for black Americans, including the right to vote, equal education, and equal employment opportunities.

Businessmen To Say 'Howdy'

"Howdy, Mr. Mayor," said James Smith, climbing into the mayor's car. "I just wanted to let you know that we're going to be expanding our company in the next few weeks. We're planning to add 50 new employees and we'll be moving into a larger building. The city has been very supportive of our business and we appreciate all the help we've received."

Stansberry Discusses Land Cost

"The land cost here is very reasonable," said Mr. Stansberry, the company's CEO. "It's a good location for our operations and it will allow us to grow our business. We're excited about the future and we look forward to being a part of this community."

African Attends Institute

"I have learned so much from this institute," said Mr. African, a student from the institute. "The lessons have been very interesting and I've enjoyed learning from other students. I'm looking forward to applying what I've learned in my work."

Who spilled the macaroni on the **MONARCH** carpet?

**HERCULON®**

As seen in the pages of Good Housekeeping.

It's true! You can be careless about carpets when the pile is 100% Herculan®! Herculan is so easy to clean because it's the least moisture absorbent of all fibers. Spills and stains tend to stay on the surface of the carpet where they can be easily removed with water and detergent or with ordinary household cleaner. Just as important, Herculan stays clean. Its low static electricity does not attract or hold airborne dust or dirt. Come in and see why this new kind of carpeting belongs in your home. Today!

Teen-Agers Urged To Try Exciting, Tasty Dishes

By Justine Smith

Teen-agers twice a week would grow more used to the kitchen and learn useful cooking and money-saving oaks through the lunch program now being given at a local junior high school.

"The school," said the Principal, "is a huge and place that would be a lot of fun to eat in. It's a place where we can get a lot of kids to come in and eat and to have a good time."

Another reason, he noted, is that the school is also a place where the students can get a lot of money by selling their own food.

"The students," he continued, "are always looking for ways to make money and this is a great opportunity for them."
