Senator Bars LBJ-Backed Free Trade

WASHINGTON: The Senate, perusing a quarterly report on the state of trade with other nations, has revealed that LBJ's free-trade policy was a disaster for the economy, with increased imports and decreased exports. The report states that the policy has led to job losses and a decrease in productivity.

Bartlett Hits Plan For 45th

Gov. Homer Bartlett Jr., in an apparent effort to slow the rate of growth, has reportedly asked the House to vote on a bill to extend the state's current 45th birthday program. The program, which was created to provide tax breaks for businesses that hire workers over age 45, has been in place since 1965.

The Inside News

"No news is good news," so say the experts. But, we at The Inside News are not ones to stand by and watch as important stories go unreported. Here are a few highlights from the past week:

- The latest edition of the local newspaper, The Oklahoma Journal, has been released. It features an article on the recent increase in the cost of living and the city's efforts to combat rising prices.
- The city council is set to vote on a new ordinance that would regulate the use of loudspeakers in public places. The ordinance has been met with mixed reactions from residents.
- A new restaurant has opened in town, offering a variety of dishes from around the world. It's called "The World Cafe" and has already become a popular spot among locals.

Lady Produces Film To Shake Up Public

By WALTER KLINE

A new film, "The Lady," is being produced by a group of women in Salt Lake City.

The film, which will be directed by Society's director, Jennifer Taylor, will focus on the issues of equality and social justice.

Taylor, who is the first woman to direct a film in the Continental League, said she wanted to create a film that would challenge the public's perceptions of women.

"I want to show the world what women are capable of," Taylor said.

The film will be released in theaters next month and is expected to generate a lot of buzz.
