Nobody else gives you this guarantee...because nobody else has this tire!

The ALL-NEW RIVERSIDE LMT

The only tire you can buy with guaranteed free replacement or brand new! Here's why...

1. NEW Prestige CORD
A strip of steel, usually enclosed in a rubberized fabric, is used in tires to increase their resistance to cuts and tears. It also increases the tire's pulling capacity, ensuring that the tire will not break down under extreme conditions.

2. NEW CONSTRUCTION
Constructing tires with high-quality materials ensures durability and longevity. This tire is built with only the finest materials to withstand the toughest conditions.

3. NEW RADIUS HOLLOW
A feature designed to reduce rolling resistance, allowing the tire to move more smoothly and efficiently. Reduced rolling resistance translates to improved fuel efficiency and overall performance.
