Computer To Aid Drive On Cheaters

State Calls Tax Crackdown

By ARN CARTER

The State Tax Commission yesterday called a press conference to announce a program that would aid in the collection of taxes that are owed. The program involves the use of computer technology to help track and recoup the taxes that are due.

The State Tax Commission is working with the Internal Revenue Service and other federal agencies to develop a system that will allow for the collection of taxes that are owed but not paid. This system will use the latest technology to track and recoup the taxes that are due.

Director of the program, Mr. Carter said, "This is a significant step forward in our efforts to collect taxes that are owed. We are excited about the potential that this technology has to help us collect the taxes that are due."

The program is expected to be implemented within the next few months, and will be rolled out in phases across the state.

Sooner Parents Digging Deeper For College

$1,750 For Year At OU; $1,489 At OSU, It's Estimated

The oldest child of the family usually has the longest road to travel. The extravagant cost of a college education for the first child is a burden on the family. The Second and Third have a bit more room to maneuver, but the costs for the entire family can be staggering.

Captive Nations A Fact

It is not, however, enough to secure the rights of the people and their governments. It is also important to recognize the cultural heritage of the people. The people have their own unique customs, traditions, and ways of life. It is important to respect these differences and not make them feel inferior or less important than others.

State Editors Say

We are pleased to present this selection of editorials from our various state newspapers. Each editorial reflects the views and opinions of the editors and publishers of these newspapers. We believe that these editorials provide a valuable perspective on the issues facing our state and the nation.

What Elections Mean

It is clear that the results of the recent elections have significant implications for our future. The victory of the incumbent candidate has not been a foregone conclusion, and the outcome of the election has been a testament to the strength and determination of the people.

Bill Tharp

Wild Horse Annie Coming To Town

"It's a tough life out here on the open range, but it's also a life of freedom and adventure. That's why we love it so much. We've been living here for years, and it's never gotten old. But now, with the movie 'Wild Horse Annie,' things are about to change. It's a big deal, and we're excited to be part of it. We know we'll have to change some of our ways, but we're ready for the challenge. It's going to be a great adventure, and we can't wait to see what happens."

Two Nabbed In Robbery
No Frills Attached To ‘Pretty Boy’ Boxer

In JAN HAYDEN

For 24 years, the lad who never was a man was the hot topic of the boxing world. His name was ‘Pretty Boy’ and his boxing career was filled with controversy. But now, things have changed. ‘Pretty Boy’ is going to take on a new role: he’s going to be a father.

The move comes after a long battle with his estranged wife, who refused to give him custody of their child. ‘Pretty Boy’ finally won the court case and was granted full custody of their son. The news has been met with mixed reactions from fans and fighters alike. Some have praised ‘Pretty Boy’ for his dedication to his family, while others have called him a sellout for giving up on his career.

The fight will be held in the hometown of ‘Pretty Boy’ and is expected to draw a huge crowd. Many are predicting a heated battle, as both fighters are determined to come out on top. Will ‘Pretty Boy’ be able to prove that he’s still got what it takes to be a champion? Only time will tell.

Central Faces Tough Opener

Cutchin Likes O-State’s Turf

The Oklahoma State Cowboys have been working hard to prepare for their upcoming game against the Central Tigers. Coach Cutchin has been putting in long hours and the players are responding well. ‘Pretty Boy’ has been a vocal leader on the team and is expected to play a key role in the game.

The Tigers are known for their tough defense and will be a difficult opponent for the Cowboys. But Coach Cutchin is confident in his team’s ability to come out on top. ‘Pretty Boy’ has been training hard and is ready to lead his team to victory.

3 Big Days Thursday, Friday and Saturday

OSU Picked By 7 Points

The Oklahoma State Cowboys are favored to win their next game against the University of Southern California Trojans. The odds are 7 points in favor of the Cowboys, making them the heavy favorite.

The Trojans have been struggling recently and are looking for a win to boost their morale. But the Cowboys are a strong team and are expected to come out on top. ‘Pretty Boy’ has been a key player for the Cowboys and is expected to lead the team to victory.

Oklahoma Among Gainers in Horse Population

Man's Main Source of Wealth

The Oklahoma book of top horses shows a gain of 3,611 horses in the state population since the last count was taken two years ago. The increase is in the thoroughbred division. The state's leading thoroughbred farms are included in the book, which is published by the Oklahoma Horsemen's Association. The book gives information on the number of horses on each farm, the age of the horses, and the number of horses bred on each farm. The book is available for $1.00 from the Oklahoma Horsemen's Association, 420 Broadway, Oklahoma City.

Reservist Finds Ride On Air Force Globemaster Quite An Experience

The 22-year-old reservist, who had been planning to ride in the air force and was looking forward to the opportunity, was surprised to find out that the flight was delayed due to bad weather. The weather conditions were not conducive to flying, and the flight was canceled. The reservist was disappointed, but he understood the importance of safety and was glad that the flight was not put at risk.

COUNCILMAN TO SPEAK

Mrs. Patkonen’s letter to the Editor recently was noted by a local politician who is a member of the Democratic Club and member of the City Council. He said that he thought it was important to bring this issue to the attention of the people. He added that the councilman was planning to address this issue in his next meeting.

Oklahoma Among Gainers In Horse Population

Most horse owners in Oklahoma are now adjusting to the new conditions brought about by the recent drought. Many are finding that they have to adapt their training methods to accommodate the reduced availability of feed. This has led to a number of horses being sold or disposed of, which has had a positive effect on the overall horse population.
