Five Funnels Spotted

Five funnel clouds were seen over Western Oklahoma last Tuesday night when a severe cold front moved in with storms. Only one of the famous clouds appeared to last long enough to be identified by the Lincoln residents. The others were reported by several residents of various towns in the state.

The Lincoln residents identified the funnel clouds as having originated in the south, possibly from Kansas or Missouri. They were visible from Lincoln and continued to the north, reaching into the area of Tulsa.

Widespread reports of funnel clouds were observed, but no one was able to verify the reports. They said that winds had been high and that trees were blown down.

The Lincoln residents reported a funnel cloud was observed near the town of Indianola, but no further details were available.

Hotel Adolphus

DALLAS, TEXAS

THE ORIGINAL MATE, SINCE 1886

“Of course we’re going to the Adolphus now that it gives gateway Green Stamps!”

How about that! Dallas’ hotel of distinction has joined the “nifty nine”! And not only are we remodeling more than 400 rooms from floor to ceiling (don’t be so anxious to work on the next…), but there’s something else new, too! Now we give $10 Gateway Green Stamps.

Stop in your choice of spacious rooms (we’ve got contemporary Victorias, Mediterranean French, ultra-modern and Early American—yes, just right for you) and lunch in our famous coffee stop at a basement for hundreds. You’ll get America’s most valuable stamps on all hotel services when you pay in cash!

Hotel Adolphus is the heart of Dallas, where everything’s happening, the car door lid or convertible airport limousine direct to the Adolphus and it’s right in the middle of everything!” Next door is the finest hotel and restaurant center of the Southwest, where Adolphus is the place to stay in Dallas—especially now that we give Gateway Green Stamps!
