Scouts Plan Honor Court

Crickets of Putnam, Inc. has charge of the arrangements for the dedication of the new Plano Park Scout Camp which will be held this weekend. The park is located in Dallas County, on the outskirts of the city. The vote is a joint venture of the Dallas and Plano Councils, and includes the cooperation of the city of Plano, the Dallas County Park and Recreation Board, and the Boy Scouts of America.

The park includes a large swimming pool, a playground, a picnic area, and a baseball field. The facilities are available to the public for use during the week, and are open to scout groups for use on weekends.

The dedication ceremony will be held on Saturday, October 10th, at 2:00 pm. The event will include speeches by the park and scout leaders, and the unveiling of a plaque commemorating the dedication.

The park is open to the public during the week, from 9:00 am to 5:00 pm. The pool hours are from 1:00 pm to 5:00 pm, and the playground is open from 9:00 am to 5:00 pm.

The park is located at 1234 Park Drive, Plano, Texas. For more information, contact the Plano Council at 972-252-4445.

Unusual Garden Plants’ Topic For Friday Garden Council

The Friday Garden Council will meet Friday at 9 a.m. in the Garden Guild Room of the Oregon State University Extension Service headquarters, 2100 NW Davis St.

The program will feature the unusual garden plants that will be used at the Oregon State Fair Aug. 30-Sept. 2. Joanne Fordham, horticulturist, will talk about these plants and their care and cultural requirements.

Fordham will talk about the plants, their origin and how they are adapted to this area.

For more information, call Fordham at 725-5411. She is director of the university's Extension Service.

Government Analysis Shows
Oklahoma City Water Supply ‘Very Hard’

A scientific report published by the United States Government has revealed that the Oklahoma City water supply has a mineral content that is twice as high as 18 Pints Per Million. The report states further that hard water can be found in 72% of the U.S. What does this mean to you? It means the water in Oklahoma City is actually harder than most people think!

One Hundred Pounds A Year

There are many notices of hard water. Dishes and glassware get dry spotty. Some states have had to stop these from building up in the pipes. This is one of many reasons why Oklahoma City has been held up on the needs of bottled water service.

In fact, water in the average U.S. home contains enough deposits to make a bucketful of hard water, more than 100 pounds per month!

One of the biggest barriers women must fight against hard water is the extra ‘time’ and extra ‘hard’ water does not work as effectively in harder water. It takes more ‘time’ and ‘hard’ water does not work as effectively in harder water, and it takes more ‘time’ and ‘hard’ water.
