Red Glory Story Unfinished

-Russell E. Blye, assistant editor

The Oklahoma Journal, in its 120th year, has a history of covering important events in the state's history. One such event is the story of Red Glory, a prominent figure in Oklahoma's past.

Red Glory, also known as James Red Glory, was a prominent figure in Oklahoma City during the early 20th century. He was known for his activism and his contributions to the black community in the city.

The story of Red Glory has been told in various forms, including on the Oklahoma Journal's website and in a recent book. However, there is still much to learn about this important figure in Oklahoma's history.
