1967.

1968.

And why not? It's just like our '67 model. Why change, when our unique formula already fights bad breath best.

That's because Listerine Antiseptic contains more active ingredients to kill germs and freshen breath than any other leading mouthwash. Keeps your breath fresh for hours. We haven't changed one golden drop. The '68 Listerine still has the same powerful, germ-killing formula that fights bad breath best.

Show us another '68 model that's got this much going for it.

Story Of JFK Death Prediction Began In 1952
A Gift Of Prophecy, II: '1960, A Dark Cloud Spread From The Numbers And Dripped Down

"It will come to pass..." the words of the prophecy. "In 1960, a dark cloud spread from the numbers and dripped down into the country."

The prediction was made by a mysterious man who called himself "The Seer." He claimed to have received a vision from God, warning of a tragic event to occur in 1960. The numbers he provided were interpreted as a code, and when decoded, they warned of a president who would be assassinated.

The Seer was later revealed to be an andrean named John F. Kennedy. The prophecy became a symbol of the nation's anxiety and foreboding in the years leading up to Kennedy's assassination.
