Leg Restored, GI’s Doing Fine

Shattuck Hospital Credited With ‘Miracle’

By JOHN MARTIN

Two weeks ago a 3-year-old Westmore youth who had lost his leg after being hit by a car got his leg back just the same. Shortly after being admitted to the Shattuck Hospital, 3-year-old Dale Cline was operated on by the staff of Dr. Harry R. Bergford, director of the Shattuck Hospital, and Dr. R. R. B. Smith, both members of the New

The story of Dale Cline’s recovery was one of the most remarkable in the medical profession. When Dale was admitted to the hospital, it was hoped that his leg could be saved. But after surgery, it was discovered that the leg could not be saved, and the doctors were faced with the difficult decision of whether to amputate the leg.

Dr. Bergford and Dr. Smith, however, decided to try a new technique. They used a device called a “blood pump” to keep the circulation in the leg alive while the doctors worked on it. This allowed them to save the leg, and Dale was able to walk again.

Basketballs To Bring Responsibility

By JOE CAVAZOS

Basketballs can be a powerful tool for leadership development. By teaching children how to play basketball, coaches can instill values such as teamwork, sportsmanship, and discipline. These values can carry over into other aspects of life, helping children become more responsible and successful.

Dahomey Army Takes Power

The army of Dahomey, a West African country, has taken control of the government. The coup is said to have been led by Colonel Tranquille Roy, who has been appointed as the new president.

Churches Warned Of Hazard

The Oklahoma Council of Churches has issued a warning about the potential hazard of lead exposure in older homes. The council is calling for increased awareness and education about the dangers of lead and for stricter regulations on lead-based paint.

Killy Wins Slalom; Kidd Gets Third

In a thrilling finish, Jean-Claude Killy of France wins the slalom event with a time of 1:21.28. Canada's Brian Kidd comes in third place, ending the race just 0.14 seconds behind Killy.
U.S. Losing War Psychologically, Mother Says

By CAROLYN LEWIS

WASHINGTON—Mrs. Harriet Blackmun, in a farewell letter to her son, the last American in Vietnam, has pointed to the fact that the best soldiers in the Vietnam war are not the ones with the best equipment or the best strategies, but the ones with the best psychological defenses. She has quoted a saying by General William Westmoreland: "The best soldiers are those who can handle stress and keep going." Mrs. Blackmun, who is the mother of Vietnam veteran Michael Blackmun, has written a letter to her son, expressing her pride in his service and her worry about his well-being.

The letter is reproduced below:

Dear Michael,

I hope this letter finds you well. I just wanted to let you know that I am still thinking about you and how much you mean to me. I know that you are in a difficult situation, and I want you to know that I am proud of you for your service.

I have been reading a lot about the war in Vietnam, and it seems to me that the most important thing is not the matériel or the weapons, but the soldiers' psychology. I think that the soldiers who can handle stress and keep going are the ones who will be able to win the war.

I know that you are doing your best, and I hope that you will be able to come home soon. I miss you very much.

With love,

Mom
