JEANE DIXON REVEALS PREDICTIONS FOR 1968

By DOUG CLARK

In a recent interview with The Oklahoma Journal, Miss Dixon also pro-

ounced that the President would not be re-elected. "We are now in the position to be freed from the shackles of the past," he said. "Our aim is to bring about a new era of peace and prosperity, and to work for the benefit of all people."}

Arkansas Man First Holiday Auto Death

A Fort Smith, Ark., man became Oklahoma's first holiday auto death in the New Year's holiday traffic when he was killed in a car that was knocked off the road on a gyroscopic trip at 10:30 a.m. at Oklahoma City. A recovered car hit his car and the man was killed. The Holiday Auto Death in the New Year's holiday traffic was the second for the state. Seven other persons were injured in the latest week, one seriously.}

ORANGE BOWL LIFE, IT'S GREAT!
Film Tells Of Donkey

Brighton at the Grand Center, was playing at the Knob Hill and Haymarket Theaters. It is a story of an infant in the city who actually lived in a hilly area in the spring of the year. The film is based on the same story book of the same name by Marguerite Henry.

The hero is a young child and when he was born, he was found in a forest. The little film was made by the child's parents, but he did not have much help from them.

The story of the 18th century in the making of the film is not quite as good as the prospective, played by Dick Fasan. The film, which also features Pan and Pan, is full of interesting adventures and some have a very close relationship. It is an "Art Film" in the feature which American animators have been so poor in the past.
City Hip To Landscaping

Landscape '67

The romance of landscaping is still with the city and its residents. With the advent of the warmer weather, city residents are turning their attention to their yards and gardens. The city has launched a campaign to encourage residents to keep their yards well-maintained. The campaign includes free workshops on landscaping and a city-wide contest for the best yard. The winners will receive gift certificates to local landscaping companies.

Beatles Slipping In Film Outings?

As the Beatles continue their world tour, they have been seen in the city's movie theaters. The group has been spotted watching the latest releases, including a new film about a famous actor who seeks the help of a famous actress to save his movie career. The Beatles have been reported to be quite interested in the story and the actors' performances. They have also been seen in the city's premiere theaters, watching the new releases with other fans.

1967 Hollywood's Year Of Turmoil

Death, Divorce Cat Wide Swath Of Stars

In the year of 1967, Hollywood was rocked by a series of events that affected many of its stars. The year began with the death of a famous actress, who was found in her home with a single gunshot wound. The actress had been involved in a high-profile divorce case, and her death was reported to be suicide. The case was reopened, and the investigation led to the discovery of a series of blackmail and extortion letters. The actress was reported to have been threatened by a group of powerful figures in the industry.

The investigation led to the arrest of several individuals, including a famous actor and director. The actor was reported to have been involved in a business deal with the actress and was trying to use his influence to save her from the troubles. The director was reported to have been involved in a sexual relationship with the actress and had been threatened with exposure if he did not comply with her demands.

The case gained national attention, and the press and public were fascinated by the intrigue and drama. The trial was a media event, and the coast was cleared of the suspects. The case was closed, and the suspect was released from custody. The actor and director were reported to have been cleared of all charges, and the actress' family was left to deal with the aftermath of her death.

The year of 1967 was a time of turmoil for Hollywood, and it left a lasting impact on the entertainment industry. The case of the actress and her associates was a reminder of the power dynamics and the dangers of the industry. It was a time of change and transformation, and it set the stage for the future of Hollywood.

Rhythm And Blues Sound Comes Of Age

The seductive qualities of rhythm and blues have earned the respect of pop music during the last five years. It has become the major ingredient of the musical landscape, and its influence is felt far and wide. R&B is a versatile genre that has the ability to evolve and adapt to changing cultural trends.

R&B, short for rhythm and blues, emerged in the 1940s and 1950s as a fusion of African-American musical styles, including jazz, gospel, and country music. It was a time of social and cultural transformation, and music played a crucial role in reflecting and shaping the mood of the era.

One of the most popular R&B artists of the time was Billie Holiday, whose deep and soulful voice captivated audiences. Other influential figures include Nat King Cole, Ella Fitzgerald, and Ray Charles, who brought a fresh sound to the genre and helped establish its place in popular culture.

The R&B sound was characterized by a mix of instruments, including the piano, guitar, saxophone, and drums. These elements combined to create a unique and powerful sound that resonated with listeners.

As the music evolved, R&B began to incorporate elements of rock and roll, funk, and soul. This fusion allowed for greater experimentation and innovation, leading to a rich and diverse musical landscape.

Today, R&B continues to evolve, with artists pushing the boundaries of the genre and creating new sounds that resonate with contemporary audiences. Whether it's through soulful ballads or energetic dance tunes, R&B has remained a vital and enduring force in music.

In conclusion, the R&B sound is a testament to the power of music to reflect and inspire. It is a genre that has the ability to transcend time and place, and its influence can be felt around the world. As the music evolves, R&B will no doubt continue to captivate and inspire new generations of listeners.
POLLS AND PROTESTS

Many Presidents have sacrificed some popularity
In the pursuit of an unpopular war. Lyndon B. Johnson
Is no exception. In the article, “Other Wars,
Other Vietnam’s” (see page 4), we present the story of
fire other Presidents who suffered similar travails
In taking what they believed to be the correct course.

U p and down the land we hear and
read of protest demonstrations;
reach-in, committees of writers,
artists, professors, plays, poems, novels,
cases, all denouncing in one way or
another our effort in Vietnam.

Public opinion experts, seeking light
on the question, regularly query samplings
of average citizens. Thus, the
well-known Gallup and Harris polls both
recently have reported a trend away
from the President’s policies. Earlier (Jan
November) Time Week took the political temperature of the
families who make up its readership, and discovered a
similar trend. Of the close to 100,000 who partici-
pated in our poll, including, of course, various
organized pressure groups, 55.5 per cent favored
getting out of Vietnam; 44.1 per cent, staying in.

Numerous people select on such figures, asserting
that they are proof that the war is a mistake. This
is not the first time in our history that a situation of
this sort has arisen, and it is not only instructive but
fascinating to put the present one in perspective.

Actually, all but two of America’s wars have
been fought in an atmosphere of agree-
ment and division that in some cases
remarkably foreshadowed the current
arguments over Vietnam — and in other
cases, make our current disagreements
seem trivial by comparison.

The idea that a war should have
unanimous national support is an inher-
ance from World War I and II —
both immense efforts which required the
mobilization of every man, woman and
child in the country. In World War II, particu-
larly, we were fighting for nothing less than our
survival as a nation. Moreover, the enemy had
handed us at the outset a clear-cut basis for moral
indignation, thanks to the sneak attack on Pearl
Harbor. It was easy to insist that everybody sup-
port the war effort heart and soul or be considered
a traitor. But Vietnam is not a world war.

To place the present upheaval in context, we have
asked Thomas J. Fleming, an historian of note and
the author of many of our Keeping Issues, to compare
the Vietnam war with some of our earlier
critical ventures. — THE EDITORS

**McKINLEY’S “HOPELESS” MESS**

Crepúsculo, because of the “hopeless” mess that McKinley’s administration had left.

After the McKinley administration's failure, the nation faced a sense of political exhaustion, which was exacerbated by the 1901 assassination of President William McKinley. This event led to a shift in power, with Theodore Roosevelt stepping into the president's role. The Roosevelt administration, known for its strong leadership and progressive reforms, was able to address the political challenges and move the country forward. The McKinley administration's legacy was one of political inaction and political exhaustion, setting the stage for a new era of leadership and reform in the United States.

Celebrities for Rent
Want to pop up a party or impress your friends? Rent a famous glamour girl, a big-name connection — or even a homecoming queen.
BY LESLIE LIEBER

Once upon a time, long before the age of inflatable ball bat and Siskel, there was a woman in New York who didn't have to worry about being left out of the party scene. If you were well-connected, you could rent a celebrity — you could even rent a whole party! But today, it's a different story. The world of celebrity rentals is not as easily accessible as it used to be. So, how do you get a taste of the celebrity life without breaking the bank? Let me tell you about Celebrities for Rent.

Celebrities for Rent is a service that allows you to rent a celebrity to attend your party. The service was created by a woman who realized that many people wanted to have a celebrity at their party but couldn't afford to hire one. So, she created a service where you could rent a celebrity for a fraction of the cost of a traditional celebrity appearance.

The service works like this: you choose a celebrity you want to rent, such as a movie star, a musician, or a politician. Then you choose a time and date for the celebrity to attend your party. The service then sends the celebrity to your party. You can use the celebrity for as long as you like, and you can use them for anything you want — from a photo shoot to a speech to a performance.

The cost of renting a celebrity is based on a per-hour rate, and the rate varies depending on the celebrity and the length of time you want them. The service also offers packages that include a celebrity plus a crew of assistants to make sure everything runs smoothly.

So, if you want to have a celebrity at your party, but you can't afford to hire one, consider renting a celebrity from Celebrities for Rent. It's a cost-effective way to get the celebrity life, and it's sure to impress your guests!
