OEASays 103, 696 'Under-Achievers' Spawnd

A Federal report today that 103,696 white students were
reading below grade level in all 40 states covered in the
study is alarming educators. The report said that these stu-
dents were not achieving at grade level in all aspects of
their education. The report also suggested that these stu-
dents were not being provided with adequate resources to
help them succeed.

Gov. Robert McDonald, who is a member of the board of
education, said, "This is a crisis. We must act immedi-
ately to improve the education of these students." He also
announced that he would be appointing a task force to
study the problem and make recommendations.

Methodists Must Become Involved, Leaders Say

The United Methodist Church today announced that
it was expanding its efforts to help under-achieving
students. The church will be partnering with schools
to provide additional support to students who need it.

"We must do more to help these students," said Bishop
Jack Morgan. "Our church has a responsibility to help all
students succeed, not just those who are able to pay for
tutoring or other extra help." He added that the church
would be providing resources to schools to help them
provide additional support to these students.

Park Ruling Legally 'OK,' Counselor Says

A federal judge ruled today that the Park Ruling was

provides a safe place for our children to play and learn."
