DA Gets Last Adultery Say

Injured Party Can Only Start Action, Court Rules

Presumption for adultery may be started by the injured party, but it must be done within 2 years of the discovery of the adultery; otherwise, the presumption may not be used. The court rejected the claim that the injured party could only start the action within 2 years of the discovery of the act of adultery. The court held that the 2-year limitation period started running as soon as the injured party knew or should have known of the act of adultery, even if the act of adultery was Discoverable from other facts or circumstances.

EVP Goby Eyes Reforms

If Reforms Fail

By David C. Mckee

Republicans must ensure their candidates have a positive image that shows them as leaders of change. The party must ensure its candidates appeal to the middle ground and avoid being perceived as too extreme.

The result will be less likely to fail if the reforms are implemented successfully. If the reforms fail, the party will lose support and the country will continue to be divided.

The money was revealed in a document that was released by the state ethics board. The document shows that the governor was paid $6,000 for speaking engagements in 2019.

The money was not reported on the governor's financial disclosure forms, which are required by law. The governor's spokesman said the money was paid for speaking engagements at an event in Chicago. The governor said he did not receive any payment for speaking engagements in 2019 other than the $6,000 for the Chicago event.

**Beef Package Means Better Quality**

The Online Meat Company has released a new beef package that promises better quality and value for consumers. This package includes a variety of cuts, such as sirloin, ribeye, and chuck roast, all selected from 100% grass-fed cattle. The beef is vacuum-sealed and frozen to retain its freshness and taste. The package is priced at $29.99 per pound, making it an affordable option for families. Additionally, the company offers free delivery within a 20-mile radius of their warehouse. This package is available for purchase online at www.onlinemeatcompany.com.

**Radiologist Is Honored**

Dr. John Smith, a long-time radiologist at the local hospital, was recently honored for his outstanding contributions to the field of radiology. Dr. Smith has been with the hospital for over 30 years and has played a crucial role in advancing diagnostic technology. He has also written several articles on radiology and has been a mentor to many young radiologists. The hospital held a special ceremony to recognize his achievements, which were also featured in the local newspaper.

**Flying Saucers—Serious Business**

The recent rash of flying saucer sightings has sparked a renewed interest in the possibility of extraterrestrial visitation. Some experts believe that the sightings could be evidence of advanced technology from other planets, while others suggest that they are simply a result of advanced military technology. The government has been cautious about releasing any information on the matter, citing national security concerns. However, some conspiracy theorists believe that the government is hiding evidence of extraterrestrial visitation.

**Air Depot Project Completes Bonds**

The construction of a new air depot project is expected to be completed on schedule, according to the project manager. The project, which includes the construction of a new hangar and expansion of the current facilities, is being funded by a bond issuance. The project is expected to create over 500 new jobs and will provide a much-needed boost to the local economy. The project manager has emphasized the importance of completing the project on time to ensure that the area can continue to grow and prosper.
