Slows Get Tax Reform Study Plan

Two State Councilmen Step Down

Moran To Quit Council Race, ARG Hold Hurt

On Friday, Plano City Councilman Bob Armstrong announced that he would not seek re-election in 1968. He said he wanted to devote more time to his private practice of law and his family. Despite his decision, the race is expected to be competitive.

Moran, who served on the council for four years, cited personal reasons for not running again. He did not specify what those reasons are.

Moran is a native of Plano and has been a practicing attorney for 20 years. He has been a member of the council since 1964.

The position Moran is vacating is up for grabs in April 1968. The race is expected to attract several candidates, including a number of business and community leaders.

Moran said he is leaving the council on a high note. He cited the city's recent success in attracting new businesses and in improving its transportation system.

Moran has been a strong proponent of the city's economic development efforts. He has also worked to improve the city's public schools and parks.

Moran's departure will likely affect the council's composition, as Moran is the only council member who represents the business community.

Moran is expected to continue his practice of law and to become involved in community affairs.

Dewey Expects Probes To Back Up Firing Claims

The Oklahoma Journal

The Paper That Tells Both Sides

Solons Get Tax Reform Study Plan

In the wake of the recent tax reform proposals by the federal government, House Speaker Homer Deavers has called for a study of the tax structure in Oklahoma. The purpose of the study is to determine if the state's tax system is fair and efficient.

Deavers said the study will be conducted by a panel of experts from the University of Oklahoma and the Oklahoma State University. The panel will be chaired by Dr. John H. Anderson, a professor of economics at OU.

The study is expected to take several months, and its recommendations are expected to be presented to the legislature in the spring of 1969.

Deavers said he hopes the study will provide a basis for a more effective tax system in Oklahoma. He said the state's tax system is inefficient and regressive, and that it is time for the state to take a hard look at the issue.

Deavers said he is confident that the study will be conducted in a non-partisan manner, and that it will provide a valuable service to the state.

The study is expected to examine the state's current tax system, as well as the effects of federal tax changes on Oklahoma taxpayers.

The study will also look at the state's tax structure in relation to other states, and will make recommendations for improvements.

Deavers said he is not sure what form the recommendations will take, but he is confident that they will be beneficial.

Deavers said he hopes the study will be completed by the end of the year, and that the legislature will take action on its recommendations in the next session.

Terrorists Hit Saigon

Viet Leader Badly Hurt

In a surprise attack, armed terrorists struck Saigon on August 7th, killing the leader of the Viet Cong and wounding several others. The attack was carried out by a small group of men who had been operating in the city for several weeks.

The leader of the Viet Cong, Nguyen Van Thieu, was killed in the attack. He was one of the main supporters of the American war effort and had been a close ally of President Johnson.

The attack shocked the world and prompted a renewed effort to find a peaceful solution to the war.

Reports of the attack were confirmed by a number of sources, including the Viet Cong themselves. They said they had launched the attack to demonstrate their determination to continue the fight.

The attack was a major blow to the American war effort and prompted a renewed effort to find a peaceful solution to the war. The next day, President Johnson announced that he would seek congressional approval for further military action in Vietnam.

Horse Happening

On Friday, the annual horse race was held in the town of Bartlett. The race was won by the horse "Fast Talker," ridden by jockey "Horse Happening." The race was a close one, with only a few horses finishing close behind. The winner was celebrated with a parade and a festival.

The race was attended by a large crowd of people, who came to watch the horses and enjoy the festivities. The race was covered by the local television station, and footage was shown on national news programs.

The horse race is a popular event in Bartlett and is attended by people from all over the country. The race has been held every year for the past 20 years and has become a tradition in the town.

The race is sponsored by the local horse club and is known for its high-quality horses and exciting atmosphere.

Horse Happening was the favorite of most people and was expected to win. However, Fast Talker was a surprise winner, and the crowd was thrilled with the outcome.

The race was a great success and was enjoyed by everyone who attended. The winner was given a trophy and a prize money, and the runners-up were also given awards.

The horse race is an important event in the town of Bartlett and is looked forward to by everyone. The next race is scheduled for next year and is expected to be just as exciting as this one.

The Inside News

University of Oklahoma (OU) student, 18-year-old Tom Anderson, was killed in a car accident on Monday night. Anderson was driving his car on the campus when it collided with another vehicle. He died at the scene.

Anderson was a freshman at OU and was a member of the campus basketball team. He was also an active member of the student government and had been elected to a key position.

The accident occurred on the west side of campus, near the student center. It is believed that Anderson lost control of his car and went off the road, striking a tree.

The cause of the accident is under investigation, and the police are urging anyone with information to come forward.

The university is offering counseling services to the students and staff members who were affected by the accident.

Reports of the accident have been sent to the governor and the state legislature, who are expected to call for a special session to discuss the issue.

The accident has sparked a debate about the safety of the campus roads and the need for better lighting and signage.

The university is expected to take action to improve the safety of the campus roads and to install more lights and signs in high-risk areas.

The accident has caused a great deal of grief for the family and friends of Anderson, who are dealing with the loss of their loved one.

The university is offering counseling services to the students and staff members who were affected by the accident.
