Nixon Abolishes Postal Patronage System

WASHINGTON - President Nixon, who announced elimination of patronage at all post offices and rural mail stations when he took office, has ordered a review of the matter, abolishing a system that has existed since the days of Benjamin Franklin.

Now, months after the announcement in the State House, Nixon has ordered that "an office in the Post Office must be abolished by the president.

In a statement, Nixon said that "the number of postal workers in the State House had increased from 5,000 to 10,000 in the past year, but that all new postal workers will be abolished by the president of the United States." Nixon added that "the elimination of postal patronage is a step towards making the post office a more efficient and capable organization for the people of the United States.

The very proud bird
to Hawaii.

The reason the Proud Bird is very proud is that beginning March 5th we can take you to Hawaii.
And that's very exciting.
Sure our big, Intercontinental 320C FanJets and our seasoned crews have made thousands of contract flights to and from the Islands.
But now we can take you to Hawaii, and we can take you like no other airlines. In real comfort...at no extra cost. Coach and Economy seats as wide as First Class! These are the same 5 big seats per row (rather than the usual 6 little ones) we use on our domestic Boeing FanJets. And since Hawaii is some 5 jet hours from the west coast, this extra roominess is more welcome than ever.
From Oklahoma City, you'll be able to travel Continental to Houston or Los Angeles and take our daily connecting flights to Hawaii.

So call your Travel Agent or Continental now for complete information and reservations.
The airline that's better because it wants to be. That's the difference pride makes.

Tulsen Talks To ACOG
Agency Urged To Get Block Grants

By PHILIP BROWN
Assistant Director, Health Administration Agency

A recent report identified a number of problems confronting the Agency. These included a lack of coordination among various programs, overstaffing, and the need for better training programs.

The report also noted a lack of respect shown to staff members, who are frequently democratic in their approach to their work. A number of causes were identified, including inadequate financial support, a lack of clear goals, and poor communication.

In an effort to improve these conditions, the Agency is considering block grants. These would provide a larger, lump sum of funds from which the various programs could draw. The Agency believes this would help it to address the identified problems and to improve overall performance.

Some members of the Agency are concerned about the potential loss of control that block grants could bring. They argue that, without clear and specific funding guidelines, it is impossible to determine how the funds will be used.

The Agency is also aware of the potential for misuse of funds. It is considering steps to prevent this, including the establishment of clear and specific funding guidelines.

The Agency hopes that block grants will allow it to improve its performance and to better serve its clients.
