In New York City, where the storm was at its peak, all flights were canceled and all trains were stopped.

The storm caused widespread damage and disruption, with reports of homes roofed in snow, Power lines down, and traffic gridlocks.

BERLIN (UPI)—The United States today announced that the Soviet Union has halted land routes into Berlin.

This move, which comes after months of tension between the two nations, is seen as a significant escalation in the Cold War.

The United States has said that the halt to land routes is a violation of the 1955 Berlin Agreement, which allows free access to the city.

The Soviet action is likely to spark a new round of negotiations, with both sides accusing the other of violating the terms of the agreement.
