Cong Elude Allies, Abandon Villages

SALINAS (UP)-Communist troops early Thursday quietly evacuated two villages that had explored an desperate last stand against massive Allied ground and tank attacks.

Troops of three guerrilla bands then trekked 10 miles north to Ba Kan on the coast, and from there continued their 30-mile trek inland to the Philippines.

Military spokesmen said the Communists apparently slipped away during the night before the first Allied tanks crossed the border.

At back 11:15 yesterday, two tanks and a few men in rubber boats from Salinas were attacked by Communist fighters, and at about 8 a.m. 10 Communist bands were killed or wounded fighting a battle on a road near Salinas.

Another big American army and Allied Commonwealth forces pressed on to the Philippines from the Salinas area.

The two bands were on the eastern shore of the Ba Kan area, and were engaged in a bitter battle with Allied Commonwealth forces. The Villagers, however, fought back tenaciously, and the two bands were killed or wounded in the first day of battle.

Two Quickly Freed In Marijuana Case

 Report of a political crisis in a nearby village, a group of U.S. Army men in the city of Saigon today freed two American citizens, George S. Winter and John S. Winter, after they had been held for 10 days in the city.

The two men were freed because they were not in the city, and were not suspected of any crimes.

New College To Have 'Instant' Accreditation

By ROBERT CLARK

Over time, the process for college accreditation can be a long and difficult one. But now, there is a new college in the area that is using a different approach. The college is called 'Instant' and it is expected to have accreditation within 6 months.

The college's president, Dr. Jane Smith, explained that the college was able to achieve accreditation so quickly because it implemented a new system that streamlined the process. The system includes a rigorous self-evaluation process, as well as a comprehensive review by external evaluators. The college also has a strong commitment to academic excellence and has already demonstrated its ability to meet accreditation standards.

'This is a major milestone for our college,' said Dr. Smith. 'We are excited to be able to offer high-quality education to our students and to be able to do so quickly. We believe that our approach will help to set a new standard for college accreditation.'

The college opened its doors in January and has already enrolled 200 students. They offer a variety of programs in subjects such as business, education, and engineering. The college has also partnered with several local businesses to offer internships and job placement opportunities for its students.

The college's accreditation is expected to be recognized by the state and federal governments, which will enable it to receive funding and support. The college is also planning to expand its campus and offerings in the near future.

'Candidates File In Area Races'

Sam Jones, who is running for mayor in the upcoming election, has filed papers to run for office. Jones, who is currently serving as the city's mayor pro tempore, said that he is running to bring change to the city.

'I am running because I believe we need new leadership in this city,' said Jones. 'We have a lot of challenges to face, and I am the only candidate who has the experience and vision to tackle them.'

Jones has already received the support of several local community leaders, who say that he is the best candidate to lead the city.

'The candidates are filing in various races around the area,' said the local election commissioner. 'The deadline for filing was today, and we have received several filings from both Democratic and Republican candidates.'

Who's Who Contest Keeps Library Busy

The Library is hosting a new contest called 'Who's Who', and it is already keeping the library very busy. The contest is open to all students and asks them to submit a biography of someone they admire.

'The contest is a great way to encourage students to learn about important people from history,' said the library director. 'It is also a fun way to get them to think critically and write about their own experiences.'

The contest is divided into two categories: middle school and high school. Entries must be submitted by March 1st, and the winners will be announced in April.

'The winners will be honored at a special ceremony in May,' said the library director. 'We are already getting a lot of entries, and we are looking forward to announcing the winners.'

'New Lake To Boost City Preserves'

A new lake is being planned for the city, which will help to boost the local preserves. The lake will be located near the city's downtown area and will provide a beautiful focal point for the community.

'The lake will be a great addition to the city,' said the mayor. 'It will help to improve the quality of life for our residents and will also attract visitors to our area.'

The lake will be designed to be environmentally friendly, with a focus on sustainability. It will also be used for recreation, with a walking trail and picnic areas.

'The lake will be a wonderful asset to our city,' said the mayor. 'We are looking forward to its completion and to seeing how it will enhance the lives of our residents.'

'State Rests Sirhan Case'

The state has finally rested its case in the Sirhan case. Sirhan is a former California governor who is facing trial for murder.

'The state has presented a strong case against Sirhan,' said the district attorney. 'We believe that he is guilty of murder and we will work hard to secure a conviction.'

Sirhan has pleaded not guilty to the charges and has been in custody since the beginning of the trial.

'The trial has been a long and difficult process for both sides,' said the district attorney. 'We are committed to seeing it through and to ensuring that justice is served.'

'Streets Transcends Sheer Economics'

The city is planning to build a new street that will connect two important areas of the city. The street will be built using a new and innovative method that will reduce the cost of construction.

'The street will be a major improvement for the city,' said the city manager. 'It will provide better access to important areas and will also help to stimulate the local economy.'

The street will be built using a method called 'hot in place', which involves heating the pavement material and spreading it over the existing road. This method is less expensive than traditional methods and also has a smaller environmental impact.

'The street will be an important asset to our city,' said the city manager. 'We are looking forward to its completion and to seeing how it will benefit the community.'

'Girl Takes Title In Spelling Event'

A local girl has won the city's spelling bee and has been named as the spelling champion. The girl, who was only 10 years old, demonstrated a remarkable ability to spell words of great length and complexity.

'The girl was a fantastic competitor,' said the spelling bee judge. 'She showed a great deal of resilience and determination and was able to spell words that would have stumped most adults.'

The girl will go on to represent the city in the state spelling bee, which is scheduled to take place in May.

Dark Cherries Hawaiian

A small supply of dark cherries allows the emergency chef to prepare instant dark dessert.

Black cherries filled with cream, or even cherries in cream with chocolate dipped in from the freezer, are the finishing touches. If the cherries are too firm, stew them gently in butter and sugar until they are just soft. To serve, blend or puree the cherries and pour over ice cream or whipped cream. The result is a rich, luscious dessert.
