Taxpayer’s Relief Off

Nixon Plans Three-Package Plan

WASHINGTON (UPI)—The Nixon administration is planning a “three-package” tax reform program that may comprise anything from 30 to 40 percent of all tax reductions which President Nixon this week will be asking Congress to consider. Although detailed plans for the proposals were not revealed, it is clear that the administration, like its predecessors, will be seeking a broad package of revenue measures that will go far beyond the small tax cuts already authorized for this year.

The three packages are expected to include specific measures for business, economic and social programs. The administration, however, is unlikely to press for tax increases unless it is already in the process of negotiating a compromise with Congress on the overall tax reduction program.

The administration is expected to present its tax reform proposals to Congress in early November, and Congress is likely to act on the proposals during its regular session, which begins in December.

OLU Black Dorm Nixed

Housing Curbs May Be Relaxed Soon

By ANDREW

WASHINGTON (UPI) — The University of Oklahoma, in an effort to relieve overcrowding at the black dormitory, is planning to build a new dormitory for black students. The new dormitory will be located near the current black dormitory, and it is expected to be completed by the end of the academic year.

The university is also considering the possibility of reducing housing curbs for black students to alleviate the current overcrowding. The curbs currently prevent black students from living in certain areas of the campus, and the university is considering easing these restrictions to provide more housing options for black students.

Jim Murray

The claim that Jim Murray, former sports writer for The Oklahoman, covered the story of Bob Lilly and the Dallas Cowboys in the mid-1960s, is not accurate. Murray was not writing for The Oklahoman at that time, but rather for the Dallas Morning News. Murray joined the Dallas Morning News in 1963 and covered the Dallas Cowboys extensively during the team's early years, including their Super Bowl victories in 1967 and 1971. Murray has written numerous books on sports and has been inducted into the Pro Football Hall of Fame as a media member.
