Once-A-Month 'Pill' Working In Mexico

Jobe Denies Performance Operation

By J. NELSON TAYLOR

Jobe's principal business is in Oklahoma City, where he produces and distributes the abortifacient nostrum he named "Enema." The pad was ordered to stop selling it to Jobe, and Jobe contends he is a victim of a miscarriage of justice.

Jobe, who recently announced he would try to perform abortions in his home, said on the phone from his home in Oklahoma City: "I didn't think I was going to be able to do it, but I am going to try."

Jobe said he is going to try to perform abortions in his home, and if that doesn't work, he will try to perform abortions in the hospital. "I am going to try to do it, but I am not going to give up," he said.

Jobe, who has been arrested several times for performing abortions, said he is not going to give up on his dream of performing abortions in his home. "I am going to keep trying, no matter what," he said.

Jobe, who has been arrested several times for performing abortions, said he is not going to give up on his dream of performing abortions in his home. "I am going to keep trying, no matter what," he said.

A Portrait of You
First Clues In 'Who's Who Tie-Breaker

You have to have more pull to be first.

That's what it takes to be leader. And the 1980 Chevrolet Caprice is a great example. With the longest standard 0-60 mph time on '80 cars, the Caprice dominates the sales charts. And it does this while pulling a trailer or making a smooth, quiet ride. Chevy has always been known for its superior engineering. The 3.8-liter V6 engine is available with most Chevy models, and it's a proven performer. So, if you're looking for a car that offers the best of both worlds, the 1980 Chevrolet Caprice is the one to choose. Follow the leader.

Reports Heard At OSU Pollution Control Parley

'Re-Used' Water Becoming More Common

By ROY J. TAYLOR

A report from the Oklahoma State University Pollution Control Parley at Oklahoma City, which was attended by engineers, scientists, and environmentalists, has indicated that the use of 're-used' water is becoming more common in various industries. The report suggests that the utilization of treated wastewater is a growing trend in water management practices. The engineers and scientists discussed the benefits and challenges of reusing water, emphasizing the importance of maintaining high standards of treatment to ensure the safety and quality of the water. The attendees were also informed about the latest technologies and methods being employed to improve the efficacy and efficiency of water reuse systems. The report concludes with a call for increased public awareness and support for water conservation initiatives.

COVERS EXISTING CONDITIONS
AFTER POLICY IS IN FORCE 6 MONTHS

Pays in addition to Medicare or other insurance. Issued by an old line legal reserve life insurance company. Licensed to operate in 44 states and the District of Columbia.

**EFFECTIVE DATE**

Accidents — from date of policy.
Sickness—which originates more than 15 days after date of policy, except a few conditions that require a 6 month waiting period.

Does not cover nervous or mental disorders, rest cure, war, suicide or intentionally self-inflicted injury while in the armed forces, dental treatment or dental surgery, except a fractured jaw — any confinement or treatment in any facility contracted for or operated by the U. S. Government for the treatment of members or ex-members of the armed forces.

**OUR PLANS ARE AVAILABLE WITH NO WAITING PERIODS**

Waiting period may be waived. Why wait six months for coverage when with American Income's new PI-88 rider you may be covered immediately.
