Man Gets Death In Hijack-Slaying

By J. NELOM TAYLOR

Michael R. Tabor, 22, of Oklahoma City, Oklahoma, was charged with murder in the slaying of a 22-year-old woman who was found dead in a car on Wednesday in Oklahoma City. Tabor is also charged with the murder of a second woman, who was found in a car in another state.

Tabor, who was arrested in a nearby city, is expected to be arraigned on Friday. He is charged with first-degree murder in the deaths of the two women.

The deaths are being investigated as possible hijack slayings. Tabor is accused of using a stolen car to kidnap the women and then killing them in separate locations.

The investigation is being handled by the Oklahoma City Police Department and the FBI.

Legislature Goes Home; Bartlett Not Satisfied

Since Militants Bow To Guard

By HARRY CULVER

Republican Gov. David Bartlett signed a bill that will end the 2021 legislative session in Oklahoma. The bill, which was signed on Wednesday, will set the stage for the 2022 legislative session to begin.

Bartlett, who is in his third term, said the session was successful because of the work of the lawmakers and the staff.

"I am pleased with the accomplishments of this session," Bartlett said in a statement. "The Oklahoma Legislature has accomplished many important tasks during these past months.

"The session was productive, and I believe we accomplished important work."

Nixon Leads Song For Duke

W. J. H. R. STRUKERS

Washington — President Nixon has made it clear that he will support his cabinet member who is trying to defend himself against a House Committee on Education and Labor investigation of his administration's policy in the District of Columbia.

The President told members of the committee that the dispute is a matter ofMcNamara and a man who is trying to put across a view of what happened in the District of Columbia.

McNamara, who is a member of the committee, testified that the administration was responsible for the policy in the District of Columbia.

The President also told the committee that the dispute is a matter of McNamara and a man who is trying to put across a view of what happened in the District of Columbia.

Farmers Hit

Bartlett Veto

Farmers have called for the veto of a bill that would have increased the size of the Massachusetts Agricultural Advisory Board. The bill would have allowed the board to have more representation from the agricultural community. Farmers have expressed concern that the bill would have given the board too much power. They have called for the veto of the bill and for the return of the previous board size.

Age Takes Preference
Over Youth

Calling attention is important when one considers the impact of age on society. In many instances, the younger generation seems to be losing interest in the values and traditions that have been passed down through the years. The emphasis on youth and its apparent superiority is often at the expense of the older generation.

One way to address this issue is to highlight the contributions of older individuals. This can be done through media coverage, educational programs, and other initiatives that recognize the accomplishments of older people. It is important to recognize that age does not determine one's abilities or worth. Each generation has its own strengths and weaknesses, and it is important to respect and appreciate the unique qualities of each group.

Thank You!
With your help, the change to A/C sounds Calling for Old Liberty City went smoothly.

"You’re probably familiar with the name, but it’s not exactly a "name" today. For example, the old number that went with the name was 979-3318. That number is now
used, and the new number is 979-3319. It’s a little different, but it works.

Many customers are finding that doubling is faster and easier with All Number Calling. That’s because you only have to look up one number. And you’ll be more consistent in your list of numbers, which makes it easier to use.

For you, it’s in doubles all over. By the time you get to the end, there’ll be a new directory. That way you may not get a wrong number.

Winter Was Cold
We’re probably all familiar with the idea that it’s no accident of fate. For example, the old number that went with the name was 979-3318. That number is now
used, and the new number is 979-3319. It’s a little different, but it works.

Thank you."

The Most!

To coin collectors everywhere, one definition of "the most" are these two $50 U.S. gold pieces--the most expensive coins in the world. MINTED IN 1877, THEY ARE NOW WORTH $100,000 EACH!

To Oklahoma City coin collectors, that is--"the most"--means the rate at which their savings earn at Oklahoma City Federal. THE MOST, BECAUSE OKLAHOMA CITY FEDERAL PAYS THE MAXIMUM RATE PERMITTED BY FEDERAL REGULATION.

4 1/2% on regular passbook savings--immediately available whenever you need them.

5 1/4% on automatically renewable savings certificates when your minimum balance is $15,000. Accounts are insured up to $41,000--also "the most." Your money will be invested in Oklahoma homes, just as it has since 1893--and we think that's "the most," too.
