A READER calls to us in a recent letter to our board in Anadarko saying: "I have been here ever since I can remember. Down below in smaller fora, stories of my life are being told." JAMES HICKS tells the story of the man who said, "Next to my son, I am the old man of the family." The grammar isn't as often, but it makes one think about the birds and the bees. "Privatized" is still a word in the air, but one that is used mostly in the context of the birds and the bees. "Get all your ducks in a row" is heard quite often, but the question is, how many ducks do you have in a row at any one time? "The cloud" makes its appearance when people are looking to the stars and the planets. One thing about the cloud, it's like a duck that floats down the river, but it's also like a duck that flies up into the clouds.

The visiting Duke Band charmed and entertained the OU football fans at a dinner in the Oklahoma City Hotel Tuesday night.

Bill Clinton, seniorrup, who is a member of the band, said they were pleased to be in Oklahoma City because it is a football town. He said that the band had been on tour for the past month and had been looking forward to coming to Oklahoma City.

The dinner was sponsored by the OU Football Boosters. The band played a number of traditional jazz numbers and some of their own original compositions. The audience was enthusiastic and the band received a standing ovation.

Red Ripe Tomatoes
Double Eating Pleasure

In the last sixty years or so, the eating habit has changed in a most significant way. The emphasis has shifted away from the lettuce shred and the pasta slice to the more substantial tomato. For years now, it has been the foremost leader in the realm of appetites. The tomato is a true vegetable. Its juiciness and flavor are unparalleled. It is a product that can be enjoyed in any form, raw or cooked. It is a fruit that is enjoyed raw. It is a vegetable that is enjoyed cooked. It is a food that is enjoyed both raw and cooked.

We have been seeing more and more people making use of the tomato as a culinary tool. It is being used in salads, soups, and as a condiment. It is being used in sauces and as a main course. It is being used in cakes and in puddings. It is being used in pies and in tarts. It is being used in ice cream and in sorbet. It is being used in cheese and in bread. It is being used in meat and in fish. It is being used in fruits and in vegetables. It is being used in spices and in herbs. It is being used in beverages and in drinks.

To enjoy this wonderful fruit, you must cook it properly. You must prepare it properly. You must serve it properly. You must eat it properly. You must enjoy it properly. You must treasure it properly. You must respect it properly. You must honor it properly. You must love it properly. You must admire it properly. You must respect it properly.

Build A Dream Marriage With Courtship Fights

IN THE U.S. reports that explain the thrill in the courtship of the young couple, one might be able to make a difference in the outcome for the better. This is a huge portion of the world. Such an outcome can mean the difference between a peaceful courtship or a difficult period.

In the past, the focus has been on the physical aspects of the courtship, such as dancing, holding hands, and kissing. However, it is often the emotional and mental aspects that can be crucial in determining the success of a courtship.

The key is to create a sense of intimacy and trust between the couple. This can be achieved through open communication and mutual understanding. It is important to build a strong foundation of trust and to work on addressing any issues or conflicts that may arise.

Aim to nurture the couple's connection and to encourage healthy communication. This can be done by setting aside quality time together and by actively listening to each other's needs and concerns.

Also, be sure to express your appreciation and gratitude to the couple. This can help to strengthen the bond and to create a positive atmosphere.

By focusing on the emotional and mental aspects of the courtship, one can help to create a strong and lasting relationship. A dream marriage is achievable with the right approach and effort.

Why should our son have a newspaper route?

The story is true. Plenty of money, new contacts, new friendships, continuous lively activity, something to look forward to, and a sense of pride and accomplishment. What's not to like? And in all probability you will, too, in these simple words:
