State American Party
Planning For 1970

When you invest a billion dollars
to help the cities,
you learn some things.

Like hope.

In that spirit, when the
insurance companies would
meet the civic leaders and
people in the community,
they would say, 'What can we
do to help?' And it was the
insurance companies who
first came forward with
money. They saw that it was
important to be involved
in the community's needs.

By our standards, this was
an unusual amount of
money to donate, but in
the insurance industry,
this is just a small gesture.

In Oklahoma, we saw
how the insurance
industry could make a
difference.

The Oklahoma
Insurance Department
met with the city's
civic leaders to find
out what they needed.

We were able to
provide the city with
over $1 million in
grants to help with
different projects.

In the end, we
learned that
investing in
the community
is a good
idea.

Fly The American Flag

The American Flag

In the past, our country
has faced challenges
like war and disaster.

But we've also seen
how our flag has
inspired us to
work together
towards a common goal.

In Oklahoma, we
saw how the
American flag
symbolizes
our nation's
strength.

So let's all
work together
towards a
better future.

Nation-Spanning Centennial

The celebration of the nation's centennial anniversary is a time to reflect on the progress and achievements of the past 100 years and to look forward to the challenges of the future. The centennial is a reminder of the country's resilience and adaptability in the face of adversity.

"EV, YOU'RE STILL A VERY PROMINENT REPUBLICAN."

Thoughts

Bill Graham

Production of newsworthy material is mighty difficult! I've just finished the first draft of a new novel and I'm already thinking about the next one. Writing is a rewarding experience, but it can also be frustrating at times. I'm looking forward to the next challenge and I hope my readers will enjoy the new book as much as I do.

Weight Watchers Add Note Of Militancy

A lot people believe in the slimmer, happier you. In some cases, it's not true. To a minor extent, Weight Watchers worries about the large number of American adults who are overweight. The program only works for those who are willing to eat less and exercise more. It's a problem that needs to be addressed.
