Behind Every Successful Woman... What Happens To A Husband Whose Mrs. Becomes Famous?

By MARGARET R. GORENSTEIN

A Career And A Family

"Under the moonlight, we are a superman," said Tony, crackling at my ear. "Superwoman and a superman."

Sitting in my office, Tony and I were surrounded by bright lights. The two of us were the only ones in the building. But I knew that in our dream world, we were alone. The moon was shining through the window, and Tony's eyes were sparkling. I looked into them with love and admiration. "Yes," I said. "I love you."

Tony smiled. "I love you, too," he said. "We're going to be the happiest couple in the world."

But as the months went by, things began to change. Tony started working more and more. He was away from home more often. And I missed him. I knew that I couldn't keep up with his schedule. But I didn't want to give up on him. I was convinced that he loved me. And I was determined to make our marriage work.

But then, one day, I received a letter from Tony. It was from his mother. In the letter, she said that she had been to see Tony and that he was not going to come home for Christmas. I was devastated. I knew that I had to do something. I had to find out what was going on.

I called Tony's mother and asked her to tell me the truth about my husband. She told me that Tony was having an affair with another woman. I was shocked and hurt. I couldn't believe what I was hearing. I had never suspected anything like this. But now, I knew that I had to take action.

The next day, I went to see Tony. I confronted him about the affair. He denied it at first. But then he started crying. I could see the pain on his face. I knew that he was in love with another woman. I tried to make him understand that our marriage was important to me. But he didn't want to listen. He told me that he was going to leave me.

I was heartbroken. But I knew that I had to do something. I decided to fight for our marriage. I made a plan to talk to Tony's mother. I wanted to find out if she had any knowledge of the affair. I also wanted to see if I could change Tony's mind.

The next day, I went to see Tony's mother. She was surprised to see me. But she was also glad to see me. She told me that she had been waiting for this moment. She said that she had been wanting to talk to me for a long time. She told me that she knew about the affair.

I was shocked. But I was also angry. I had been blindsided. I had thought that my husband was faithful. I was angry that he had kept this secret from me. But I was also determined to save our marriage.

I asked Tony's mother to tell me everything. I wanted to know the details of the affair. She told me that the other woman was a neighbor. She said that they had been seeing each other for a long time. She said that Tony had been seeing her for a long time. She said that he had been seeing her for a long time.

I was devastated. I couldn't believe what I was hearing. I had been blindsided. I had been duped. I had been betrayed. I was desperate to save our marriage. I asked Tony's mother to help me. She agreed. She said that she would do anything to help me.

I was grateful. I knew that I had to do something. I decided to talk to Tony. I knew that I had to be honest with him. I knew that I had to tell him about everything. I knew that I had to make him understand why I was important to him.

I told Tony everything. I told him about the affair. I told him about the other woman. I told him about everything. I told him that I loved him. I told him that I was willing to do anything to save our marriage. I told him that I was willing to do anything to save our marriage.

Tony was shocked. But he was also moved. He told me that he loved me. He told me that he was willing to do anything to save our marriage. He told me that he was willing to do anything to save our marriage.

I was overjoyed. I knew that I had done the right thing. I knew that I had saved our marriage. I knew that I had saved our marriage.

1. Plan ahead for your vacation. Try to plan your vacation early so you can get the best deals and availability.

2. Choose a destination that will work for all of your family members. If you have young children, you may want to consider a beach vacation or a vacation in a theme park.

3. Consider the cost of your vacation. Make sure you have enough money to cover all of your expenses.

4. Pack lightly. Bring only the clothes you need for your vacation and don’t forget to bring sunscreen and a hat.

5. Avoid long lines. If you’re going to an amusement park, try to go early in the morning or late in the afternoon to avoid long lines.
