U.S. DESTROYER CUT IN HALF; 56 MEN MISSING, FEARED DEAD

DUMP FIRES NOT ILLEGAL?

By Philip Morehead

Oklahoma City (AP)—A top state official said Friday that the city's valuable industrial area is under attack from heavy smoke that is blocking traffic in the downtown area. He said the fire is being fed by a strong wind and that it is not yet clear how it started. The official said there has been no sign of a fire. He said he was not sure if the fire was started by accident or was deliberately set.

The official said it was not clear what caused the fire, but that it was likely related to the city's industrial area.

He said the fire had started in a building and had spread to several other structures in the area.

The official said that the fire had caused some damage to the buildings, but that there were no reports of injuries.

The fire had caused some damage to the buildings, but that there were no reports of injuries.

It's 'Official'
What was once the site of a fire in Oklahoma has been transformed into a public park by the city of Oklahoma City. The fire, which occurred in 2011, was caused by a gas leak and resulted in the loss of several lives. The park, which is located at the site of the former Tinker Air Force Base, is now a popular destination for local residents.

$101 less than last year's Impala with comparable equipment.
Bronko Nagurski, Grid Legend, Still In A Hurry

In his heyday, the 6-2, 245-pound gridiron giant seemed invincible. But time is wearing a mighty toll on the 50-year-old Chicago native who gained fame as one of the game's all-time greats.

Nagurski may look fit and trim, but the years have taken a toll. His mobility has been affected and the quartet of arthritis sufferers — knees, back, shoulders, fingers — are working overtime to keep the legendary gridiron hero moving.

"A lot of arthritis affects a person's mobility, particularly when you're as big as Nagurski," one doctor said. "It can affect how you walk, get around and even how you eat.

The arthritis was first noticed in Nagurski's back. "His back broke down because of the strain," the doctor said. "Then it spread to the knees, fingers and shoulders. It's a common progression in many arthritis suffers, particularly in older people with big skeletons like Nagurski.

"But Nagurski is still a remarkable athlete, despite his arthritis," the same doctor said. "He still has the strength and the agility to perform at an Olympic level. And he's still a tough competitor, even if he doesn't look as tough as he used to.

So, Nagurski, now a resident of Champaign, Ill., keeps up his gridiron activities. He still plays a bit of football and he's still a bit of a showman on the field. But the arthritis affects him, and he knows it.

"I know I've got arthritis," he said. "But I still enjoy playing football, even if it's not as much fun as it used to be.

"I still have to take it easy," he said. "But I still play football, and I still enjoy it. I just have to be careful, because the arthritis can flare up at any time.

"But I still have a lot of fight left in me," he said. "I still have a lot of love for the game, and I still have a lot of respect for my opponents. I still have a lot of respect for the sport of football.

"I still have a lot of love for the game," he said. "And I still have a lot of respect for the sport of football.
