Top Banker Sees Higher Prime Rate

By ROBERT ROWEN

WASHINGTON — David Rockefeller, Chase Manhattan Bank board chairman, said in an interview Wednesday that an increase in interest rates is likely if the national economy continues to improve. Rockefeller, who is a member of the Federal Reserve Board, said that a rise in rates would be necessary to keep the economy from overheating.

He also said that the Federal Reserve Board would probably raise interest rates at its next meeting, which is scheduled for late March.

State Sets Own Rules On Welfare

State Sen. John B. Rowan, D-Oklahoma City, said Thursday that Oklahoma should have its own welfare program, separate from the federal government.

Rowan said that the federal welfare program is inefficient and that Oklahoma should have its own program to better meet the needs of its citizens.

IRA Probing Health Aid Participants

WASHINGTON — The Internal Revenue Service is auditing the health aid programs of firms that received Federal tax credits in 1974, a top IRS official said Thursday.

IRS Commissioner Donald M. Wagman said that the IRS is conducting a comprehensive audit of the health aid programs and that it is looking for ways to improve the effectiveness of the programs.

Trial Reform Plan Launched

BY JANE JARVEY

WASHINGTON — The Senate Finance Committee has launched a comprehensive plan to reform the nation's trial system, a top congressional aide said Wednesday.

The plan, which is expected to be released next month, would provide for the appointment of a special counsel to investigate claims of malpractice and to develop a new approach to trial practice.

Everybody Loves Parade

ATOKLAHOMA CITY — People of all ages turned out Monday night for a parade, which started at 7 p.m. and ended at 11 p.m.

The theme of the parade was "Everybody Loves Parade," and it featured floats, marching bands, and a variety of other activities.

California S CM

L.A. (AP) — California Gov. Jerry Brown has declared a state of emergency in Los Angeles County, where a fire has destroyed several homes and forced thousands of people to evacuate.

The fire, which began in the early morning hours, has burned more than 1,000 acres and has forced about 2,000 people to leave their homes.

Dr. D. R. Stansel (1937-1974) served as the 24th governor of California from 1971 to 1975.

Stansel had been a major contributor to the Democratic party, and his death came as a shock to many who admired his leadership.

The facts were submitted to a special commission appointed by the California Governor's Office, which recommended the investigation be conducted by the California State Board of Education.

Porcelain Baker Has 'Hot Job'

by ROBERT H. BERRY
ART CREATION in the form of a fine china planter is a
1967 row for Mrs. Leonard H. Evans, Jr., who has
been baking in the state for over 30 years. The planter is
made by the Delphi Glass Co. in the state. It is
available in a variety of colors and is

Zoo Personnel Take Forward Step

The Oklahoma City Zoological Park remains a national landmark. The park and the animals it houses are a true public treasure. The zoo, a place where children and adults can see and learn about animals from around the world, is a place where people can connect with nature. It is a place where the beauty of animals and the beauty of people come together.

The park is home to a variety of animals, from primates to reptiles, from birds to mammals. It is a place where people can see animals that they may not have seen before, and where they can learn about the habits and behavior of these animals. The park is a place where people can learn about the importance of conservation and the need to protect the animals that are in danger of extinction.

The zoo is a place where people can connect with nature, and where they can learn about the importance of protecting the environment. It is a place where people can see the beauty of animals and the beauty of people, and where they can learn to appreciate the importance of protecting the natural world.
