Nixon Asks More 'Workfare'
Welfare Changes To Be Expensive, President Tells Nation

WASHINGTON — President Nixon proposed Friday night a fundamental and far-reaching reform to ensure that welfare recipients are not just "living off the state," but instead prepare themselves to become self-sufficient. Nixon's plan would involve a shift away from direct cash assistance to a "workfare" program, where welfare recipients are required to work, participate in educational programs, or engage in job training.

The President put direct means at the core of his plan to ensure that the millions of Americans receiving welfare assistance are not just "living off the state," but instead prepare themselves to become self-sufficient. Nixon's plan would involve a shift away from direct cash assistance to a "workfare" program, where welfare recipients are required to work, participate in educational programs, or engage in job training.

Surprise Move Called 'Inevitable'
FRANC DEVAULED TO MEET CRISIS

President Nixon has deviated from traditional economic policies by devaluing the franc. This move is seen as a response to the economic crisis facing many African countries, which have struggled to pay for their imported goods.

Austerity Programs Launched

The move follows a series of economic reforms aimed at reducing government spending and increasing economic efficiency. The new austerity measures are expected to lead to a reduction in government debt and a stabilization of the economy.

Suspicious Nixon

The decision to devalue the franc has raised concerns about the economic stability of the franc zone. Many economists and policymakers have expressed concerns about the potential negative impact of the franc devaluation on the economies of the franc zone countries.

In the case of Bohanons Decision Stands, an appeal was set on the court's decision. The case involves a dispute between Bohanos and another entity, with the court ruling in favor of Bohanos.

Reds Rocket U.S. Bases Near DMZ

In a significant development, the Reds have been observed flying near the demilitarized zone (DMZ). This is the first such observation in recent years, leading to increased tensions on the Korean peninsula.

Panic Caused 'Beret Case'

The incident involving the "Beret Case" has led to panic among military personnel. The cause of the panic remains unclear, but it has led to increased scrutiny of military practices and procedures.

State Indian After Hickel

Secretary Called 'Menace'

In the wake of the death of State Indian Hickel, the Secretary of State has been called a "menace" by many in the political landscape. The Secretary has been at odds with the Indian community for some time, causing tensions to rise.

Cliff-Hangers In The News

There were no cliff-hangers in this week's news. The events that have captured our attention are related to the recent U.S. presidential election.

There is a lot about the recent U.S. presidential election, with some candidates leading by margins that are statistically significant. However, the election results are still uncertain, and several states continue to report delays in the vote counting process.

As we wait, there is much to be discussed regarding the outcome of the election and its implications for the future of the country. In light of the political climate, it is essential for citizens to engage in informed discussions and participate in the democratic process.

The PEOPLE'S Voice

Humanitarian

The importance of humanitarian efforts cannot be overstated. Organizations like the United Nations play a crucial role in addressing global challenges, including poverty, famine, and conflict.
