Camille was no lady.

Camille was a hurricane the likes of which this country has never seen.

Starting on the night of August 17th, it ripped its way through Louisiana, Mississippi and Alabama.

It flooded Virginia and West Virginia.

It killed people by the hundreds.

It destroyed homes by the thousands.

It crippled countless small businessmen and farmers and fishermen.

And it left thousands of Americans in desperate straits.

Red Cross volunteers are there right now doing everything they can, but the latest estimate says it will take $15,000,000 to put those thousands of American men, women and children back on their feet.

Give them all you can. Right now, you're all they've got.

Camille was a disaster.

Give to your local American Red Cross Chapter or United Fund.
