Tulsa 'No's Kill Bond Item

In this week's issue of The Oklahoma Journal, the editorial board presented a strong argument against the issuance of $20 million in bond items for various projects in Tulsa, Oklahoma. The editorial concluded that such a large sum of money would be a burden on taxpayers and would not serve the best interests of the community.

**Quasar Color TV**
by MOTOROLA

The one with the "works in a drawer"

NOW ONLY $499.95

*Same solid state dependability.*
*Same plug in tubeless mini-circuits for fast, easy service.*

**REDUCED QUASAR PRICES**

We have only a limited number of 1969 Motorola TV's, including many Quasar Models. These models are now discontinued, and while our current stock lasts, are being sold at substantial savings to you! Also included are black and white TV's, stereo & portable color T.V.'s.

Compact Quasar Color TV with the "works in a drawer" that slides out the back. That's what makes it compact!

Why the lowest price on Quasar Color TV? Because Motorola made this Quasar TV compact, so the price is compact, too. But the tubeless plug-in solid-state mini-circuits haven't changed. You get the same solid-state dependability and fast, at-home mini-circuit service that the famous console model has. Some solid-state mini-circuits for color, for sound, for picture, and so on. Some years-ahead dependability because mini-circuits are designed not to lose power, not to burn out the way tube do. Some ease of service—if a mini-circuit ever needs replacing, another can be plugged in, usually right at home, in minutes.

So, if you're looking for a "something better" Color TV, better look into the new compact 227-square inch picture Quasar Color TV. It has the big dependable difference at a new low price.
