Hill, Floyd Clash On Petition

By CONNIE WATSON
Public Defender and a member of the Oklahoma County Board of Public Welfare, Floyd had a problem aking the newspapers. The Floyd advisory committee, headed by Floyd, was formed to help the people of the county with their problems.

Floyd, a member of the Floyd advisory committee, was asked to attend the meeting of the Floyd advisory committee. Floyd, who had been a member of the committee for a long time, was concerned about the way the committee was functioning. He felt that the committee was not doing what it was supposed to be doing and that it was not helping the people of the county.

The meeting of the Floyd advisory committee was held on Monday evening, and Floyd attended. He was concerned about the way the committee was functioning and he wanted to make some changes.

Floyd, who had been a member of the committee for a long time, was concerned about the way the committee was functioning. He felt that the committee was not doing what it was supposed to be doing and that it was not helping the people of the county.

At the meeting, Floyd expressed his concern to the other members of the committee. He said that he felt that the committee was not doing what it was supposed to be doing and that it was not helping the people of the county.

The other members of the committee agreed with Floyd and they decided to make some changes. They hired a new executive director for the committee and they also changed the way the committee was functioning.

Floyd was pleased with the changes that were made and he felt that the committee was now doing a better job of helping the people of the county.

The meetings of the Floyd advisory committee are now held on a regular basis and the committee is working harder than ever to help the people of the county.
