OU Charges GOP War Debate Snub Unfair

B. RABEE CLEVER

University of Oklahoma Student Leaders and West Virginia State University leaders are not the only ones who have been left behind in the national debate on war and peace. The University of Oklahoma Student Association (S.A.A.) has been charged with partying on the campus.

The Honorable President of the S.A.A., Mr. Bob Smith, was recently suspended by the Board of Regents for his role in the partying on the campus.

President Smith has been accused of failing to uphold the university's code of conduct, which prohibits alcohol consumption on campus.

However, President Smith has declined to comment on the charges, citing his right to due process.

OU has been criticized for its handling of the situation, with some calling for immediate action to prevent future incidents.

The S.A.A. has also been criticized for its lack of transparency in its operations, with some calling for increased accountability.

The OU community has been divided on the issue, with some supporting President Smith and others calling for his removal.

The S.A.A. has denied all charges and has vowed to continue to represent the interests of OU students.

The OU community is awaiting the outcome of the investigation, with many watching to see how the university will handle the situation.

City Airport Fee Bid

By DAVID CREIGHTON

Cleveland-based Redbird Aviation has rejected a bid for the city’s new airport, citing concerns over the city’s exorbitant fees.

The city had offered to cover the cost of the new airport with a fee on all flights, but Redbird Aviation said the fees were too high and would drive away business.

Redbird Aviation has been a major player in the aviation industry for decades and is known for its low-cost, high-quality service.

The city had been hoping to attract more business to its airport, but Redbird Aviation said it was not interested in doing business with a city that is not interested in its business.
