Harris Backs Moratorium To 'Stand By Youth'

BY DAVID CHANDLER

In a 3 to 0 vote, the county commissioners of Dutchess and Rockland counties have approved a motion to create a task force to investigate the possible effects of marijuana on youth. The vote came during a special meeting held in response to concerns raised by parents and community leaders over the increased use of marijuana among young people. The task force will consist of representatives from local government, law enforcement, education, and health and public safety agencies.

Dr. Gordon A. Hudson, president of Dutchess County United in Support of Youth and Families, expressed support for the task force, stating, "It's time we take a closer look at the issue and work together to find solutions that will protect our youth from the negative impacts of marijuana use."

The vote was seen as a significant step forward in the ongoing effort to address the issue of marijuana use among young people. Many community leaders praised the commissioners for their willingness to take action, while others called for continued vigilance in the face of what they see as an escalating problem.

The task force will begin its work immediately, with a goal of completing its initial report within the next six months. In the meantime, residents are encouraged to continue to share their concerns and ideas with local officials.

War Argued
House Debate Gets Squeal

Day Gets Support

Reds

WASHINGTON, DC - House members supporting House Speaker Bob Matsui's (D) proposal to set a firm date for the withdrawal of US forces from Vietnam said the House was in the best position to make the decision for the nation.

In the debate on the floor, Speaker Matsui noted that the United States had committed more than 7,000 troops to Vietnam, and that the US had already pulled out of the war in South Vietnam. He argued that it was time for the US to follow suit in the north as well.

However, some members of the House opposed the proposal, arguing that it was too soon to decide on withdrawal.

Integration Case Goes To Court

By GAIL EAGLE

A case involving a New York City school district's policy of desegregating schools is set to go to court. The case has been pending for months, and both sides are preparing for a long and drawn-out legal battle.

Reverend (Rev.) Martin Luther King, director of the local chapter of the National Association for the Advancement of Colored People (NAACP), has asked the district to desegregate its schools, arguing that current policies violate a federal law.

The school district has resisted the request, arguing that its current policies are in compliance with the law.
