Truce In War Declared Fact By Mansfield

"Upset' Youth Hijacks Plane"

Fulbright Calls Off Hearings

WASHINGTON, D.C. - Senator J. William Fulbright, chairman of the Senate Foreign Relations Committee, announced Tuesday that the his panel would not hold an investigating hearing into the so-called "peace" demonstrations. 

Fulbright said he would call for a hearing next week. He had previously announced that a hearing would be held next week, but then rescinded his announcement.

Fulbright said he was responding to the recent demonstration by the youth group, "Upset' Youth," which hijacked a plane and diverted it to New York City.

"We cannot allow this kind of disruption to continue," Fulbright said. "We must hold someone accountable for this行为."

The demonstration took place on Tuesday, when a group of youths hijacked a plane and diverted it to New York City, claiming they were "protesting against the Vietnam War." The plane was later returned to its original destination, and the youths were arrested.

"We will not tolerate this kind of behavior," Fulbright said. "We will hold these individuals accountable for their actions."

Fulbright said he had spoken with the president and other leaders of the government, and they had agreed to hold a hearing next week.

"We will not allow this kind of issues to go unresolved," Fulbright said. "We must hold someone accountable for this behavior."

Fulbright said he had also spoken with law enforcement officials about the situation, and they had agreed to hold a hearing next week.

"We will not allow this kind of behavior to go unresolved," Fulbright said. "We must hold someone accountable for this behavior."

"A Name Worth Remembering"
Oldsmobile Showing New Hardtop Coupes
Toronado Undergoes Big Change

SILON, Mich., Sept. 27 (AP)—Oldsmobile, the Detroit automaker, took a giant step forward in its line-up for 1970 with the introduction of a new hardtop coupe, the Toronado Undergoes Big Change.

The new model, known as the Toronado Undergoes Big Change, is a hardtop coupe designed specifically for the 1970 model year. It features a new engine, a revised suspension, and improved interior and exterior styling. The car is powered by a new 455-cubic-inch V8 engine, which offers increased horsepower and torque compared to the previous model.

The Toronado Undergoes Big Change also includes a new suspension system that improves handling and ride quality. The car's exterior has been updated with new front and rear bumpers, as well as a revised grille and taillights. Inside, the Toronado Undergoes Big Change features a new instrument panel and more comfortable seats.

The new model is available in a variety of options, including a power steering unit, power brakes, and a AM/FM radio. Oldsmobile is also offering a limited production of Toronado Undergoes Big Change with a special trim package called the "Performance Package." This package includes a sports rear spoiler, a special decklid, and a set of five-spoke wheels.

The new Toronado Undergoes Big Change is part of a broader marketing strategy by Oldsmobile to appeal to a younger audience. The company is emphasizing the car's modern design and performance characteristics, which are intended to set it apart from competitors.

Ford gives you Better Ideas. It's the Going Thing!
`Challenges Of 70's' Parley Theme

The challenges of the '70's will be on display at the Oklahoma City Convention Center next month when a fleet of 1970 models materialize at the Oklahoma City International Auto Show. Bill console, AM/FM push button stereo, and a wrap-around rear window. The vehicle will be powered by a 300 hp 340 CID engine and is expected to retail for $8,000.

The SPIRIT of 1970

The 1970 model year is upon us and the auto industry has come up with some exciting new features and designs. The Ford Torino, which is one of the most popular models this year, is known for its powerful V8 engine and stylish design. The Oldsmobile Cutlass Supreme is another popular model that offers a blend of comfort and performance. Overall, the '70s were a time of new innovations and exciting changes in the auto industry.

All-New Torino, Thunderbird
Lines Featured By 1970 Fords

Ford's new Torino model is a modernized version of the classic Lincoln-Mercury design. The Thunderbird model, on the other hand, is a luxurious car with a powerful V8 engine. Both models are expected to offer a good value for their price.
