Clinton's Base Gets Early Cut

Defensive Secretary McCarthy Monday said he will order an early cut of the McConnell Air Force Base. "The base was approved for early cut because of the continuous, heavy demands for manpower by our armed forces." The cut will go into effect immediately.

The OPA had passed an order of the base's personnel for immediate personnel reduction. The new pay will be reduced from 80 basis points to 60 basis points, effective next Monday.

Senator Bill Would Doom Foundations

Washington, D.C. - The Senate Finance Committee, which had been considering a bill to provide financial assistance to religious foundations, has rejected the bill. The committee voted against the bill, which would have provided financial assistance to religious foundations, by a vote of 45 to 25.

U.S. Borrowers From Aid Recipients

The United States has borrowed large sums from aid recipients in recent years. The loans have been used to finance aid programs and to repay previous loans. The loans have averaged several billion dollars per year.

State Rep. Archibald Hill's (R) new bill to extend the United States' moratorium on aid is expected to face a difficult battle in the Senate. The bill was introduced by Rep. Hill, a member of the Appropriations Committee, and is expected to be debated this week.

Tinker Pay Raise OK'd

The Oklahoma City Council has approved a pay raise for Tinker Air Force Base employees. The pay raise, which will go into effect on November 1, will increase the pay for most employees by 10 percent.

Strikers Rap Labor Leader

New York, April 16 -- Strikers at the Metropolitan Opera Co. today are charging that Lewis M. Eisenberg, president of the federation of Performing Arts Unions, has turned on them. Eisenberg, who has been a pacifist, is now supporting the war. The strikers, who are demanding higher pay and better working conditions, say they are being forced to go on strike. The strike is expected to last for at least a week.

Hopes For Peace In Mideast

Anti-war protests in the United States and around the world continue to grow in numbers and intensity. The U.S. government has been accused of using violence and misinformation to suppress these protests. The situation is tense and volatile, with tensions between the U.S. and other countries escalating.

Working Refuse Drivers Praised

They Drive On Despite Threats

By PHILIP MORRE

"They're all scared, Frankly, I'm real proud of them," Assistant City Manager Jack Easter said at the 6:00 meeting at 6:00 in the evening Monday in the Board of Health building. The meeting was called to order, and the first item on the agenda was a discussion of the refuse workers' strike.

"I don't know what to expect, but I hope they meet the test," Easter said. "It's the first time we've had a strike in the history of the city." Easter said he was confident that the city's refuse workers would continue to work.

"It's a matter of pride for the city and its residents," Easter said. "We've been through many crises and come through with flying colors." Easter said he was proud of the city's refuse workers and their dedication to the job.
