$10,000 Hike Urged
Bartlett Due Salary Boost?

BY DAVID CRABBE
George Bartlett and three other city councilmen Thursday for salary increases, putting the issue on the agenda for the city council's next meeting. The councilman's request for raises would bring the governor's salary to $20,000. He already receives $18,000, an amount that is equal to the minimum wage paid to a full-time city employee, according to the city's personnel manual.

The councilmen said they would rather have a special election than see the resolution put on the agenda for the next meeting. They said the city should have a special election to decide whether or not to raise the salaries.

The city's Personnel Manual states that the governor is to receive a salary of $18,000, which is equal to the minimum wage paid to a full-time city employee.
