Red-U.S. Military Views Hit

Washington Merry-Go-Round

Bunny On Payroll
For Congressman

JOHN P. McWILLIAMS

Washington, D.C.

To the Editor:

I am writing to express my concern about the recent developments in the military's views on personnel policies.

The recent rash of disputes between the military and civilian employees has raised serious questions about the effectiveness of current policies. The military's stance on personnel matters has become increasingly confrontational, leading to a breakdown in communication and cooperation.

I urge the military to adopt a more inclusive and collaborative approach to personnel management. This is essential for maintaining a healthy and productive work environment.

Sincerely,
