Flight From Vegas Ends in Disaster

New Mexico Crash Kills 11

ALBUQUERQUE, N.M. (AP) — A private Learjet crashed in a mountainous area near Las Vegas, Nev., exploded and crashed to earth in a skid Saturday afternoon, killing all 11 people on board. The crash occurred near the city of Las Vegas, about 50 miles north of the New Mexico-Ne đổ line. The Learjet was carrying passengers, including two pilots, to a ski resort in the mountains.

World 'Cloud's Silver Lining

We may not see ourselves from another's viewpoint, nor do we always see ourselves as others may see us. What is a silver lining to one person may be a cloud to another. This is true in the case of the United States and its export policies in the Middle East. The United States, it is often said, has been a leader in exporting and importing goods from the Middle East, but the truth is that the United States has not always been a leader in exporting and importing goods from the Middle East.

The government has always been a leader in exporting and importing goods from the Middle East, but the truth is that the United States has not always been a leader in exporting and importing goods from the Middle East.

The PEOPLE'S Voice

Forward

Dear Editor,

I am writing to express my concern about the current state of our economy. As we all know, the economy is in a state of crisis. Unemployment rates are high, and businesses are struggling to stay afloat. It is clear that something needs to be done to help our economy.

This is a “want ad”

Only those people wanting better jobs, better living conditions and a better future will be interested.

OG & E wants all those things for all of its customers. To make these “wants” come true, the people at OG & E have done a lot of work and effort each year convincing industry to move a lot of its products to our part of the country. Why does OG & E invest in new industry here? Because OG & E is sure of the want:

1. New tax sources to share the cost of new and better schools.
2. New job opportunities for you and members of your family.
3. New paychecks that get spent in your place of business.
4. New security for everyone through an expanding economy.
5. New reasons for young people to settle here and build their homes and rear their families.

These are only some of the “Wants” and these are only some of the things new industry means. One nice thing about OG & E is that it has a proud story to tell the rest of the nation about Oklahoma. It’s the story of wonderful people, intelligent, cooperative people who work hard and continually set records of creative productivity in the industries already located here.
