Training Unique 
K-9's Prowl Old Buildings

By JOHN CARLSON

Couched in the shadows of a desolate architecture, a Roman sentinel, vigilant against a threat he knows the end of a short distance away, spies the wolf and the snow shadowing its path.

Wolves, earlier, perhaps more, had been warned here with a thud upon the ground that it was not safe, or with a warning of another kind. Now, with a wolf's eye on the prize, the wolf, keeping to a path laid down by the moonlight, moves silently through the night, every move a cautionary measure in service to its own survival.

When the annual bands, the yearly rations, are exchanged, and the wolf's path is worn into the ground, there's only a hint of a hint of the path, followed by the beast, which crosses the barrier of caution and begins the search for its prey.

The wolf, as a creature, is a marvel of endurance and survival. Its strength is one of its most significant assets. Its ability to blend with the environment is another. The wolf's cunning and intelligence are also critical in its ability to survive.

The boy, with his dog, the wolf, and the man, together navigate the shadows of architecture, moving silently, as the wolf's path is worn into the ground, there's only a hint of a hint of the path, followed by the beast, which crosses the barrier of caution and begins the search for its prey.

Shawls Shown By Designers

By Pauline Trigere
NEW YORK CITY—There are no new shawls design wise, but they are in need of all over the place, and the designers have been busy coming up with new designs and variations of old favorites. The shawls are made in a variety of materials, including cashmere, wool, silk, and synthetic blends. The styles include wraps, scarves, and stoles, each with its own unique design and color scheme. There is a wide range of shades, from soft pastels to bold, bright colors. The designs range in price from affordable to high-end, with prices starting at $49.95 for a lightweight cotton scarf and going up to $499.95 for a luxury cashmere wrap. The designers have also included a range of sizes, with options for petite and plus sizes. The shawls are perfect for layering over outfits, adding a pop of color, and keeping warm during colder months. They are available in stores and online, with options for in-store pickup or shipping. With the upcoming fall season, designers are excited to showcase their new shawl designs to customers, and they are confident that these shawls will be a hit this season. The shawls are also perfect for gifting, with a variety of styles to choose from and prices to fit any budget.

The following true-false quiz is based on recent scientific findings. Take it, and you'll learn more about introverts and extraverts—most important of all, about yourself.

1. It's easy to tell whether you're an introvert or an extravert.
2. Extraverts are more spontaneous than introverts.
3. Most introverts are among their closest friends in the morning, while extraverts tend to get better later in the afternoon.

5. Too fast thinking is an indicator of introversion. It can indicate introversion.
6. Introverts hold their liquor longer than extraverts.
7. Extraverts can have better reactions.
8. Introverts suffer less from headaches, anxiety, and stress than extraverts.

He lives with afever, always packed, a radio receiver on his bed, and абсолют clearance to any jet airport. L. Col. Ralph Alberthazzaro tells the story of America’s most important flying job—in—

By W. J. O’Neill

"I Fly the President"

UNITED STATES OF AMERICA

The pilot that most people know as Air Force One, with United States of America emblazoned along its fuselage, is the American flag painted on its tail, and the American eagle on its nose. The pilot in charge is the President of the United States. This is the pilot in charge of Ralph Alberthazzaro. When he was a young man, President Alberthazzaro joined the United States Navy as a pilot and rose through the ranks to become the President of the United States. Today, Alberthazzaro sits in the cockpit of Air Force One, ready to take off on his next assignment. He has flown this aircraft on more than 500 occasions, covering more than 250,000 miles. "I love flying," he says. "It’s the best job in the world."

Why is L. Col. Alberthazzaro the President’s Pilot?

Col. John O’Neill, writing in the Washington Post, when he was the editor of Air Force magazine, wrote about Ralph Alberthazzaro, the best-qualified pilot in the Air Force to fly President Nixon’s plane. He said: "Ralph Alberthazzaro is the best-qualified pilot in the Air Force to fly President Nixon’s plane."

The job of presidential pilot calls for a thorough and trained professional who can cope with the stresses of the job. The job also requires expertise in communications and navigation. Alberthazzaro has over 5,000 hours of flight experience and has been flying for over 30 years. He is a highly respected and experienced pilot. He has flown for the United States Navy and the United States Air Force. He is a member of the Air Force Association and the National Association of Flight Instructors. He has been honored with numerous awards and accolades for his aviation career. "Flying is my life," he says. "It’s what I do best."

"By 1964, my wife Carol and I thought of our life as something special," he said. "Our two daughters, Rachel and Sara, had been born, and we had a home and a growing business in the kind of work that I liked." Before that, he had been a pilot in the Air Force, and then a commissioned officer in the Navy. "I have always enjoyed flying," he said. "It’s the best job in the world."

"The most important thing is to be able to fly and serve my country," he said. "I love the challenge of flying and the responsibility that comes with it."

"I am honored to have been chosen to fly for the President," he said. "It is a great honor, and I take it very seriously."

"I have always been fascinated by aviation," he said. "I have been flying since I was a child, and I have always had a love for it."

"When I was a child, I would dream of flying," he said. "I would imagine flying over the United States, and I would think about the people I would meet, and the places I would see."

"H O N O R A R I U S is the most offensive thing in the world. I believe in being honest. I do have a hand-in-hand with being disliked. And I preserve the right to be disliked!"

Give the Uncommon Gift This Christmas!

By ROSALYN AREVAYA

The uncommon gift is of every Christmas shopper—sometimes an impossible dream. But here are some suggestions to make the dream a reality. These suggest gifts "do" things: Be an important vet, stand as a "first," or feel the eye (while maintaining their actual prudence).

With the grill up, you\'ll never guess what this trimmer really does (1)—design clothes! Taking up no more space than a small tv and unconnected to run, it conveniently tucks away for two points of deep cleaning. Inside is a 60-minute automatic timer; place into an electric socket. The Not-So-Playful Game

BY KEVIN V. BROWN

The children eat in a circle, their hands and faces a blur of activity, clapping their hands in delight, laughing and shouting with pure joy. A foot-long tiger stands on his hind legs on an island in the room, reared and spread its mouth. The tiger, all teeth, would try to drop its head on its back but would be stopped by the children's heads before they could catch it in the mouth.

Behind one-way mirrors, spectroptic eyes watch the children's reactions and listening, through hidden microphones, to their sounds of happy terror. After 30 minutes of animated play, the interviewer participated, carefully grading the child on the basis of their responses.

One girl commented, "I liked it better than anything because it was fun, and girls were just as good as boys, and it made me laugh, and I was scared of the tiger, and I want my mom to buy me one,"

"Tiger Island" received one of the highest scores in the history of scientific testing of toys, using children and child psychologists, and the report sent to the manufacturers rivaling the market place. For a winning ticket, the wind was tapped, though, because Tiger Island made itself a difference. Hardy expresses it.

The competitive market points up only one of the hazards in the modern world of toys. Today, the toy industry is a multimillion-dollar business, and the competition is keen. It all boils down to the fact that the toys must be as competitive as the market. A major hazard is to think too much like the children, and run the risk of getting lost. The competitive market is not a place for timid, slow-moving entities. It is a place for competition, and the toys must be as competitive as the market.

"The smokeless tobaccos. They aren't lit, puffed or inhaled. They're too good to smoke."

Put a pinch between gum and cheek, and enjoy it. Without even chewing. The smokeless tobaccos are light. You get all the satisfaction of prime aged tobaccos. They cost less, too. Sure beats smoking!

"SALLY BANANAS" by Charles Barsotti

Sundays make me sentimental.

When I was a little girl, Daddy would read the Sunday funnies aloud to me....

...and Mom would fix pancakes with maple syrup.

...then we'd all pile into the car and...

Waaahahahaaa!!!

What's the matter with Sally?

The funnies.

Hi, Lois

Don't forget to watch the new movie, "The Great Gatsby".

But I'm afraid the box office will be empty.

Don't worry, I'll bring the popcorn.

I'm sure we'll have a good time.

Papa! Papa! Papa! It's the first day of winter!

And the first step in my plan to conquer the world!

But wait, I forgot my gloves.

I'll be right back.

See you later.

Hi, Sandy.

What's the matter with my soda?

Did you pour it?

No, it's empty.

I'll go see if there's any more.

Hi, Sandy.

I brought you my soda.

Thank you, Papa.

Well, I have to be going.

How come?

I have a date with Mary at the movies.

I see.

Good morning, dear.

It's about time you got home, Victor. Did you let them keep yourционaries when you went in?

Not this time.
