Harris Seeks Bell Probe

PRESIDENT OF A BOOKS COMPANY — Eight days ago, Harry R. Harris, of the Bell Telephone Company, was hit by a bomb in the mails. Now, he has filed suit against the American Telephone and Telegraph Company, charging that the telephone company is liable for the damage.

Harris, the former president of the Western Union Company, was hit by the same bomb that knocked out the telephone company's main office. The company claims that it had nothing to do with the incident, but Harris insists that the phone company is responsible.

Here's when most folks over 65 find out...too late...what Medicare does not pay...

Now, for just $1 for your first month's protection, you can examine 'on approval' this sensible, affordable Plan!

New Elder-Care® pays you up to $50,000 Tax-Free Cash!

It covers every hospital expense that Hospital Medicare leaves out, except the initial deductible:

- only $3 a month after the first month!
- no age limit
- no health questions
- all pre-existing conditions are covered!

Your first month is only $1.
And you get your dollar back if you're not completely satisfied.

MEDICARE IS GREAT—BUT...!

Watch the Venice. Knowing that it is, please realize that Medicare isn't covering millions of folks. It has gaps—deductibles, premiums and charges that you must pay out of your pocket. And recent changes have increased those gaps. The Government pays into it and you pay out of it. Even with the help of Medicare, you may still face a $1500 hospital bill. That's why you should have Hospital Medicare. In case you are hospitalized, you could leave with a crippling hospital bill.

DON'T LEARN THE FACTS THE HARD WAY!

After you've paid it, you'll know a little less about Medicare today, you pay the initial deductible for each hospital stay. That's the first $65 of hospital expenses. Then from the 61st day of the period you must pay $17.43/day. After 90 days this increases to $37.80/day — $93.00 a month — that's 93 dollars a month you will be paying. Just think, when you start adding up your Hospital Medicare 60-day "Lifeline Reserve". And after your 90th Reserve is used up, Hospital Medicare won't pay you a cent for the rest of the period. Think what a long spell of illness could mean— the slow drip of how much other folks get in Social Security — just think! You could be stuck with hospital bills that could wipe out retirement savings — wipe out your home equity (at today's rate) — sell your house — even to turn to your children for cash!

ASK YOUR PARENTS OVER 65 READ THIS!

Right now is the best time to review your parent's current hospital policies. Since all insurance plans are not the same, we urge you to bring this plan to your insurance agent. He's not only so qualified in long-term care, but you're not being sold a policy. This hospital insurance is designed to help our clients who may be under-insured for their medical needs. Call us today and we will explain to you the best policy for your needs.
