BUSING DISTANCES STUDIED

By ROBERT STUNDER

A study to compare distances traveled by Oklahoma City school administrators revealed that the proposed "Pace Plan" for school integration would not be feasible. The plan would require the school system to move approximately 90,000 students from one school to another. The study concluded that the plan would be too expensive and would result in overcrowding in some schools.

Vikings, Trojans Win In Irish Meet

After Six Years, Riley Gets His Chance

The Thunder's loss was admittedly a bitter pill to swallow for many fans. The team had high hopes for the season, but they were quickly dashed as losses piled up.

Marti's 65-foot putt put him in the lead, and he managed to hold onto it throughout the tournament. It was a great performance and a welcome change from the losing streak.

The Vikings and Trojans emerged victorious in the Irish Meet, adding to the excitement of the sports community. Fans were thrilled to see their favorite teams come out on top.
