Nine minutes of Nashville: $1.80

That's the charge for a nine-minute call from here to Music City when you dial it yourself the One-Plus way from 5 p.m. to 11 p.m. Sunday through Friday. It's figured like this:

First three minutes: 60¢ Each extra minute: 30¢

One-Plus rates on out-of-state calls are even lower all day Saturday and Sunday till 5 p.m.

One-Plus...there's no cheaper way to call Long Distance.

**Report On Contract Schooling**

"Performance contracting" is a ridiculous ploy to improve education.

Simple school officials are genuine people making a last-ditch effort to portray the principles of organized school日至ness. They fail for lack of understanding. The result is a complete waste of time and money. The Oklahoma Board of Education, under the leadership of Dr. Donald R. Stringer, has组图 the leadership to turn around the situation. It is now time for us to show our support for the Board and its efforts to improve our schools.

The story of the ITT backed coup attempt in Chile is a sad reminder of the power of multinational corporations. The situation is not unique to Chile, as similar attempts have been made elsewhere. It is time for us to stand against such attempts and promote peace and stability.

Report Cites Pipe Dangers

WASHINGTON (AP) — A government report released Monday that all states were making slow progress in cutting down on the number of deaths and injuries from underground pipelines that carry natural gas.

The report, "Cutting the Risk of Underground Pipelines," was released by the Department of Transportation's Federal Pipeline and Hazardous Materials Safety Administration.

The report found that there were 9,200 accidental deaths and injuries from underground pipelines in the United States in 2019, compared to 8,700 in 2018.

It also noted that the number of deaths and injuries from underground pipelines has declined in recent years, but the pace of improvement is still slow.

The report recommended that states increase their enforcement efforts to ensure that pipelines are properly maintained and that repairs are made quickly.

ONG Asks Pipeline Rehearing

TULSA — Oklahoma Natural Gas Co. Monday asked the Federal Power Co-

rporate for a rehearing of the proposed Arkansas pipeline project.

The Federal Power Co. had granted the company a maximum $300 million in

federal loans to build the pipeline, which will extend from Arkansas to

Oklahoma.

The proposed pipeline would run from the gas field in eastern Arkansas to

a new processing plant near the eastern border of Oklahoma.

The Federal Power Co. said it would begin construction of the pipeline after

the hearing.

Have you noticed how many young families get carried away with Chevelle?

There are several reasons why this kind of family has such an impact. One is

that the Chevelle is a classic mid-size car that is easy to drive and

attractive. The other is that Chevelle is a car that is easy to

repair.

But then we come to the real question: How do you keep your Chevelle

in good shape? The answer is simple: Firestone Champion tires.

Firestone Champion tires are the choice of many Chevelle owners.

Impala starts you relaxing long before you get where you're going.

No matter how long your traveling vacation, you'll enjoy your trip

more if you start off with the right tires. Impala's standard power front
disk brake is powerful enough to stop the car in a safe distance.

Picking the right tires is important because they can determine how

your car handles in all kinds of driving conditions.

The Firestone Champion tires are designed specifically for

Chevrolet Impala.

Our newest Nova. Nova you can be practical and also ask for the same.

A new roof just in time for summer. And if one of the many cars you can

choose for your family is Nova, you'll want to have one.
