Governor Hitting .167 In Legislature

By RICHARD DAVIS

With the legislature’s approaches perhaps less than a week away, the governor is studying the options of a legislative program for the session. He said he would study all of the governor’s programs, to be held last spring, and any other programs of the session. Legislative Predictions, Page 15

It appears there were two reasons for the governor to send a letter to the House of Representatives. First, he wanted to tell them about his intention to send a letter to the Senate, and Second, he wanted to explain his views about the revenue bills. Higher taxes and user fees on sales taxes and gasoline taxes, he added, would mean a large tax increase. The tax increase would result in the loss of $300 million to the state's budget. The tax increase would be used to pay for the governor's program to reduce the state's debt. The governor said he was not sure how much money he would need to fund his program. He said he would study all of the programs before making a decision.

David Frost Effect

By THOMAS WEISSMAN

LONDON - Of all the industries involved in the David Frost phenomenon, one that has perhaps been most affected is the fashion industry. The former host of the BBC's "The Frost Report" has emerged from his seven-year television layoff to become a fashion icon.

LONDON - Of all the industries involved in the David Frost phenomenon, one that has perhaps been most affected is the fashion industry. The former host of the BBC's "The Frost Report" has emerged from his seven-year television layoff to become a fashion icon.

Frost's unique style, characterized by his signature white shirt and black tie, has been emulated by many. His glasses, his hair, and his general attitude have all contributed to his new image. The fashion industry has taken notice of Frost's influence, with many designers creating collections inspired by his look.

Frost's style has also influenced other areas of life. His approach to dressing has been adopted by many, from celebrities to ordinary people. His influence has spread beyond the fashion industry, affecting everything from music to art.

Frost's success has been attributed to his ability to connect with his audience. His mix of humor and insight has made him a beloved figure in the entertainment world. His ability to engage with his audience has been a key factor in his success.

In addition to his work in television and fashion, Frost has also been involved in other areas, including writing and producing. His contributions to the entertainment industry have been widely recognized.

Frost's influence has continued to grow, with many looking to him as a source of inspiration. His style continues to be emulated, and his influence is likely to continue for years to come.

How does Katharine Hepburn feel about the book "Little Women," which was published in 1869 and which she appeared in as a young woman? In a recent interview, she was quoted as saying, "I loved the movie version. It was as close as I could get to the book."

Miss Hepburn has always expressed her affection for the character of Jo March, the tomboyish schoolgirl who becomes a successful author. "Jo is someone I can relate to," she once said. "She's always been my favorite character in literature."

"Jo's energy and her ability to overcome obstacles are qualities I admire," she continued. "I think that's why I've always been attracted to her."

The book "Little Women" was written by Louisa May Alcott and was first published in two parts in 1868 and 1869. It tells the story of the March sisters, who are raised by their mother after their father goes off to war during the Civil War.

The original movie adaptation of "Little Women" was released in 1933 and starred Katharine Hepburn as Jo March. The film was directed by George Cukor and was a critical and commercial success.

"Jo's story is one that has resonated with generations of women," Hepburn said. "I think it's because she's so relatable."

The book has been adapted into numerous films and television series over the years. Hepburn's co-star in the original film was James Cagney as John Brooke, who was Jo's first love.

"The relationship between Jo and John was a defining moment in the film," Hepburn said. "It's a love story that has stood the test of time."

Hepburn said that she enjoyed working with Cagney, who was known for his powerful performances.

"I found him to be a very talented actor," she said. "He brought a lot to the role that helped make John a memorable character."

The book "Little Women" has also been adapted into operas, ballets, and other forms of theater. Hepburn said that she would love to see a new adaptation of the book on stage someday.

"I think it's a timeless story," she said. "It's one that will continue to be relevant for generations to come."

Hepburn said that she still enjoys reading the book today and that she plans to continue to read it for as long as she can.

"I can't imagine not reading it," she said. "It's a story that I've come to love even more with each passing year."

Dick Van Dyke: “When Problems Come to Arizona, I’ll Move On”

STAR PROFILE

By Peer Oppenheimer

Dick Van Dyke is trying so hard to sell us on all the beauty of living today. Last Christmas he gave every member of the cast a few subscriptions to “Arizona Highways.” Dick’s new love affair with the desert began in 1983, when he drove through the states in search of his favorite town in Hollywood. That was a year before Marlene and I were married in the Biltmore and Dinner-theatre shows. He recited: “This girl is in a program which means business, and it will be just a baby killer.” And it was just a baby killer, but it scared us all to death. I got a job at Daisy’s at 9:30 and I was there as soon as possible. Dick’s was not even willing. It was obvious that Dick was not available. Although his TV show is in production for its second year, Dick’s enthusiasm for his new career seems to have diminished. “If I don’t watch it,” said Marlene, “it’s a necessity.” She went on to say that Dick had spent enough money for two hotels in one week. He has to be married to the desert. So Dick and I settled down to watch the show. It was a strange week. Since we settled in, I must have killed 500 cigarettes!”

“Like the first week,” I said. “Actually, it was in time, and we were right up. It was just a baby killer, but it scared us all to death. I got a job at Daisy’s at 9:30 and I was there as soon as possible. Dick’s was not even willing. It was obvious that Dick was not available. Although his TV show is in production for its second year, Dick’s enthusiasm for his new career seems to have diminished. “If I don’t watch it,” said Marlene, “it’s a necessity.” She went on to say that Dick had spent enough money for two hotels in one week. He has to be married to the desert. So Dick and I settled down to watch the show. It was a strange week. Since we settled in, I must have killed 500 cigarettes!”

General Electric can show you this.
Because we have the dishwashers that will do this.

The pot on the left has the remains of a burned bean casserole. The unscathed picture on the right is the same pot after it has been scrubbed with the bristled brush water motion of one of our Potscrubber dishwashers with Power Spin Cycle. Nothing else was done to this pot. No pre-rinsing. No spraying. We washed it along with a full load of 8 other dirty dishes, pans, and silverware. We just took the picture.

You'll get the same results as we have if you'll follow our simple loading instructions for different sizes and types of loads. Instructions are provided with every Potscrubber we sell.

That's why we can give this guarantee:

"Buy any one of our Potscrubber dishwashers with a Power Spin Cycle from a participating GE dealer between June 30, 1972 and June 30, 1973. If you're not fully satisfied with its performance and you'll be the judge, notify the dealer within 30 days of your purchase. He'll take back the dishwasher and refund your money. No questions asked."

We also promise that you don't have to scrape or rinse a pot or pan with any of our Potscrubber models. Each Potscrubber has a handy device, the soff-food disposer. It disposes of all the soff stuff. You just fill up large and hard stuff.

Next, a couple of fine points about our Potscrubber models. In addition to pots and pans you can also safely wash fine china and crystal.

We make a line of Potscrubber models to fit into a lot of different kitchens. Built-in, front-load convertibles, portable ones, can be built in later.

We also come up with "Softy" soft-cleaning for the insides. If each chip and crumb more stain resistant than our all-in freelances.

We have another quality feature, dependable as our Potscrubber.

Customer Service Everywhere. This is our pledge that wherever you are, or go, you find an authorized GE service agent. Should you ever need help, you can count on us.

These are probably some of the reasons why more people use GE dishwashers than any others.
WALLS: They've Never Had It So Good!

Decorators agree, walls are the first place the eye alights. Getting your walls together deploys all that you see and how you use it. The range of materials available—metal, wood paneling, vinyl wall covering, paint, etc.—acts on anyone's imagination. The look of your walls depends entirely on personal tastes and needs, but if you want quick inspiration, borrow some of the ideas illustrated here. Two of the three incorporate product materials that are practically news:

Create a Game Corner with a Metallic Wall System!

This handsome system consists of metallic wall panels, the perfect backdrop for games that need a striking environment. The metallic panels are available in a variety of colors, which can be combined to create a unique design. The system is easy to install, and the metallic finish adds a touch of sophistication to any game room. You can use the panels to create a backdrop for your favorite game or to create a striking display for your collections.

Expand Space with "Mirror" Walls!

A imperative to influence a room's appearance is the introduction of a "mirror" wall. "Mirror" walls reflect light and create the illusion of a larger room. They can also be used to create a focal point in a room, drawing attention to a particular area or piece of furniture. "Mirror" walls can be designed to fit any room, and you can choose from a variety of materials, including glass, metal, and wood. The result is a room that feels more spacious and inviting.

To the 56,000,000 people who smoke cigarettes.

A lot of people have been telling you not to smoke, especially cigarettes with high 'tar' and nicotine. But smoking provides you with a pleasure you don't want to give up.

Naturally, we're prejudiced. We're in the business of selling cigarettes. But there is one overriding fact that transcends whether you should or shouldn't smoke and that fact is that you do smoke.

And what are they going to do about it? They can continue to exhort you not to smoke. Or they might look reality in the face and recommend that, if you smoke and want low 'tar' and nicotine in a cigarette, you smoke a cigarette like Vantage.

And we'll go along with that, because there is no other cigarette like Vantage. Except Vantage.

Vantage has a unique filter that allows rich flavor to come through it and yet substantially cuts down on 'tar' and nicotine. It has only 12 milligrams 'tar' and 0.8 milligrams nicotine.

It is not a heavy drag cigarette. You don't have to work so hard pulling the smoke through it that all the joy of smoking is lost. Not that Vantage is the lowest 'tar' and nicotine cigarette. (But you probably wouldn't like the lowest 'tar' and nicotine cigarette anyway.)

The plain truth is that smoke has to come through a filter if taste is to come through a filter. And where there is taste there has to be some 'tar'.

But Vantage is the only cigarette that gives you so much flavor with so little 'tar' and nicotine. So much flavor that you'll never miss your high 'tar' cigarette.
How to Make Up to 13\% or More on Your Savings—All Fully Insured

There are many things banks don't like to talk about. They don't like to talk about the fact that they do, indeed, pay interest rates of 6%, 8%, 10%, 13\%, and often more, to a select group of knowledgeable depositors.

The difference between those who know and those who don't is the difference between people who walk in the bank to deposit money and those who call the bank and ask about its best money market account.

Why Were Bankers Warned That This "New Book Could Upset the Savings Applecart"?

A Reader's Remembrance:
The Day I Met Shirley Temple

When I was taking my first year at an American University, I read a college password book which had been written by the school's president. One day, I was walking home from classes, and I ran into Shirley Temple. She was walking with her parents, and they were talking about her new movie, which had just been released.

Shirley Temple was very kind, and she took the time to chat with me. I remember that she was wearing a beautiful dress, and she had a sweet smile. I told her that she was the most beautiful woman I had ever met, and she laughed and said, "Thank you, but I'm just a regular girl."
