Missing Girl Spends Night With Playmate

BY MICKI BRECKEN

"Dot-Dot" Home After Seeing Herself On TV

OR, PIB. the girl did it. The famed "Dot-Dot" home is now a well-known women's residence in the city, and the story of the girl's adventures is the latest sensation. She was found near the scene of a recent burglary.

"I never thought it would happen," the girl told her. "But I'm glad it did!"

TROY OGDEN passed along the story. "When she showed up, we were so surprised. She had been seen in the neighborhood, but no one expected to see her here."

WILL ROGERS stated it was a big surprise. "We never thought she'd come this far. Her disappearance was the center of attention for weeks."

Nixon Hinting At Escalation

BY E. B. BROOKS

The White House indicated today that the United States might escalate its military operations in the area of South Vietnam. This was confirmed by the President's press secretary, Ronald Ziegler.

"We will do whatever is necessary," Ziegler stated. "But if it means escalating the war, we will do it."

Ferment Stirs In Churches

BY INGRID DICK

The Edmondson family has been involved in the community for many years, and they have always been active in the local church. However, recently, there has been a lot of ferment in the church. This has happened because of various reasons, including the political climate and the increased emphasis on social justice issues.

"We have always been a community that is concerned about social justice," the Edmondson family stated. "But now, we feel more compelled than ever to speak out."

The Oklahoma City Diocese has been affected by this ferment. The Bishop has been active in addressing these issues, and the local clergy have also been vocal.

"We believe that the church has a responsibility to speak out on these issues," the Bishop stated. "We cannot remain silent in the face of injustice."

The ferment has also been felt in other churches in the diocese. Local clergy have been speaking out on various issues, and the church has been actively involved in social justice activities.

"We believe that the church has a role to play in creating a more just society," the Bishop stated. "We cannot sit on the sidelines and watch as injustices are committed."

The ferment has been both positive and negative. On the one hand, it has led to increased activism and a greater sense of solidarity among church members. On the other hand, it has also led to internal conflicts and divisions.

"We believe that the church should strive for unity and harmony," the Bishop stated. "But we also believe that we have a responsibility to speak out on issues that affect the community."

The ferment in the church is likely to continue, and it will be interesting to see how it evolves in the future. The Bishop and the clergy will continue to be active in addressing these issues, and they will work to create a more just and inclusive community.

"We believe that the church has a mission to serve the community," the Bishop stated. "We cannot remain silent in the face of injustice."

There are many who are firmly convinced that colored television will revolutionize the world. Some people feel that colored television is an exchange of color for sound. In these people's opinion, the world in general is better off without the addition of color to television. They feel that while the black and white television sets we have today are not quite as good as they could be, they are far better than the television sets which we have today. They feel that the introduction of color television will only aggravate the problems which we have today.

On the other hand, there are many who feel that colored television is a necessary addition to the world. They feel that colored television is an exchange of color for sound. They feel that the world is much better off with colored television. They feel that the introduction of colored television will only improve the quality of television sets we have today. They feel that the introduction of colored television will only improve the quality of television sets we have today.

We agree with those who feel that colored television is a necessary addition to the world. We feel that colored television is an exchange of color for sound. It is a much better idea to have color television than to have black and white television. Publisher's Mark ImPRESSive

By Nancy Jenkins

Publisher's Mark is a name that is synonymous with quality, excellence, and innovation in the print media industry. The name is a representation of the company's commitment to providing the highest level of service and satisfaction to its clients. The company has been in operation for over 50 years and has established itself as a leader in the industry with a strong reputation for excellence.

The name 'Publisher's Mark' is derived from the tradition of placing the publisher's mark on the back of the paper, which has been a common practice in printing since the early days of the printing press. The mark is usually a simple symbol or design that is printed in red ink and serves as a stamp of authenticity, indicating that the paper is genuine and has been produced by a reputable publisher.

Publisher's Mark has made significant contributions to the industry through the years, particularly in the area of technology. The company has invested heavily in state-of-the-art equipment and software, allowing them to stay ahead of the curve in terms of production efficiency and quality. This has enabled them to meet the demands of their clients, who are increasingly looking for faster turnaround times and higher standards of printing quality.

In addition to their technical advancements, Publisher's Mark has also placed a strong emphasis on customer service. The company has a team of dedicated professionals who are trained to understand the specific needs of their clients and work closely with them to ensure that their projects are completed to the highest standards.

In conclusion, Publisher's Mark is a company that has a rich history of excellence and innovation in the print media industry. Their commitment to quality, service, and technology sets them apart as a leader in the field. They continue to evolve and adapt to the changing needs of their clients, ensuring that they remain a trusted partner in the world of print media.

Secretary Of The Week

Her Hobby Is History

Mrs. Marguerite Smith, the chairman of the History Committee of the Diocese of Oklahoma, is a woman of many talents. She is a history enthusiast who has dedicated her life to the preservation and study of the past. Mrs. Smith is a member of the Oklahoma Historical Society and has been involved in many projects that aim to promote an appreciation for the history of our state.

Mrs. Smith was born in Oklahoma and grew up in a family that valued education and history. She credits her parents for instilling in her a love for the past and a desire to learn about it. Mrs. Smith has a passion for reading, particularly history books, and she enjoys spending her free time reading and researching the history of Oklahoma.

In her role as the chairman of the History Committee, Mrs. Smith is responsible for overseeing the activities of the committee, which includes organizing events and educational programs. She has worked tirelessly to promote a greater understanding of Oklahoma's history and has been successful in engaging the community in this important endeavor.

Mrs. Smith is a woman of many accomplishments, and her dedication to history is just one of her many contributions to the community. She is respected and admired by her peers, and she continues to inspire others with her love of the past. Her commitment to preserving and sharing our history is a testament to her dedication and passion for the subject.

Oil Business Not All Work

Firms Fight Octane Rule

In what has been a controversial move, the government has imposed new regulations on the oil industry, requiring them to reduce the octane level of gasoline. The regulations have caused a stir among oil companies, who argue that the move will negatively affect their profits and the economy as a whole.

The decision to reduce the octane level of gasoline was made in an effort to reduce greenhouse gas emissions and improve air quality. However, the oil industry has argued that the move will lead to higher fuel prices and reduced performance of vehicles.

Several firms have filed lawsuits challenging the regulations, arguing that the government did not provide sufficient evidence to support the need for the change. They have also claimed that the regulations will result in higher fuel costs for consumers, which will have a negative impact on the economy.

In response to these challenges, the government has argued that the regulations are necessary to protect public health and the environment. They have also pointed out that the cost of reducing emissions is offset by the savings in fuel costs and reduced pollution.

The battle over the octane rule is likely to continue for some time, as the industry and the government work to find a compromise. In the meantime, consumers will continue to see higher fuel prices as a result of the regulations.

4-Day Week Popular

The idea of a four-day workweek is gaining popularity among employers as a way to improve employee productivity and job satisfaction. The concept is based on the idea that reducing the number of workdays can actually increase productivity by giving employees more time off.

One company that has embraced the four-day workweek is a software development firm, which has found that allowing employees to work four days a week has led to increased productivity and lower turnover rates. The company has attributed the success of the program to the increased free time that employees have to focus on personal and professional development.

Other employers have also experimented with the four-day workweek, with some finding that it can be a successful strategy for improving employee satisfaction and retention. However, the concept is not without its challenges, and some employers have found that it can be difficult to implement effectively.

Mutual Funds

The financial world is replete with options for investing your money, but few are as attractive as mutual funds. Mutual funds are a type of investment vehicle that pools money from many investors to purchase a diversified portfolio of stocks, bonds, and other securities.

One of the key benefits of investing in a mutual fund is diversification. By investing in a mutual fund, you are not putting all of your eggs in one basket, which can reduce the risk of losing all of your money. Mutual funds also offer the advantage of professional management, as the fund's managers have the expertise to allocate your money across a variety of assets to maximize returns.

There are many different types of mutual funds available, each with its own investment strategy. Some focus on growth, others on income, and still others on a mix of both. It's important to carefully consider your investment goals and risk tolerance when selecting a mutual fund.

In conclusion, mutual funds are a popular choice for investors looking to diversify their portfolios and benefit from professional management. However, as with any investment, it's important to do your homework and choose a fund that aligns with your investment goals and risk tolerance.

Ten for Two Investment Certificates

Ten for Two Investment Certificates are a unique way to invest in your community. These certificates offer a way for individuals to invest in local businesses and projects, while also providing financial assistance to those in need.

The Ten for Two Investment Certificates are designed to help local businesses grow and create jobs, while also providing a way for investors to earn a return on their investment. The certificates are sold through a network of local organizations, such as chambers of commerce and community foundations.

Investors purchase the certificates for a set price, which is then used to fund local projects or businesses. The certificates are designed to be a win-win for both investors and the community, providing a way for both groups to benefit from the investment.

The Ten for Two Investment Certificates are just one example of the many ways in which individuals can invest in their community and make a positive impact on the local economy. By investing in these certificates, you can help to create jobs, support local businesses, and build a stronger community for generations to come.

"WHAT'S UP? A VERY FUNNY 'DOC..."

totally cheerful, a beautifully disordered farce. Miss Streisand is more truly comic than she's ever been before on film. O'Neal is even better. 'WHAT'S UP, DOC?' works not only as comedy recalled, but also as a very funny, most genial contemporary farce in possession of its own cockeyed intelligence." —Variety

"WHAT'S UP, DOC?" IS A BEAUTIFUL PIECE OF MOVIE STORY-TELLING. Bogdanovich has delivered a G-rated, witty and romantic comedy in a fast and melodic tribute to the great screwball comedies of the Hollywood 30's. It's light, it's foolish, it's good fun. —Cherie Chezénard, Los Angeles Times

Baroness Van Pallandt Has No Regrets Over Irving Affair

By NELSON RODGERS

NEW YORK. (AP) — No regrets over the Irving Affair, said Baroness Van Pallandt, the woman who was once linked with Irving Berlin. She added that she has no regrets about her relationship with the late composer, who was a close friend and confidant of hers.

The Baroness, who is visiting New York for the first time in years, made the statement during an interview with the Associated Press. She said that she and Irving Berlin had been close friends since the early 1920s, when she was a young woman and he was still in his forties.

"I have no regrets," she said. "I believe that every man is entitled to love and affection. And I am grateful to Irving for the years we spent together."

$500 A MONTH TAX FREE CASH when you go to the hospital

USE REPLY ENVELOPE INSIDE BEFORE MIDNIGHT, TUES., APR. 11, 1972

NO SALESMAN WILL CALL • NO MEDICAL EXAM TO ENROLL • NO AGE LIMIT
Dear Friend:

You know me. I wouldn't recommend anything I didn't honestly believe in. And I think National Home's $500-a-month plan is just about the best additional financial protection you can give your family -- especially in these days of rising medical costs.

That's why I'm happy to give this plan my unreserved endorsement.

I've looked over the policy very carefully. I've made a point of getting to know some of the folks at National Home. And you won't find more decent, friendly people to deal with.

I've seen the way they handle claims, too -- quickly and generously. Believe me, when you need them, they'll be there to help you.

That's why I can't imagine anybody passing up the chance to enroll in this health plan -- especially when the first month's protection costs only $2.00.

We all know what a terrible thing it is to be hospitalized. But what a relief it is to know there's tax-free cash coming in when you need it most! Take my advice. Send the enrollment form on the back page now -- before you forget.

Sincerely,

Art Linkletter

2

You collect at the rate of...

$500 a month cash

when you receive hospital care -- for each accidental or illness. If you are in the hospital, and stay for each illness, starting the fifth day $11.00 a day continuing for 30 days thereafter.

$250 a month cash

If you're 66 or over, for the first 3 months of hospitalization. This means if you are directly to you in addition to Medicare or any other coverage you may already have. After 3 months, if you are still in the hospital, you then receive...

$500 a month cash

Hereafter -- in addition to Medicare benefits -- even for life. For example, Coverage for accidents begins the very first day in the hospital; sickness coverage begins the fifth day.

No age limit • No medical examination to enroll • No salesman or agent will call

Out of 30 million people will be admitted to the hospital this year. It could be you -- or some beloved member of your family -- tomorrow, next week, next month. And to my way of thinking a good health insurance policy is worth every cent it costs. These costs are more than doubled in just a few short years.

So for a moment think how much a long stay in the hospital will cost you or a loved one. How would you pay for it? Would you stretch your savings, use your credit cards, charge it, or perhaps liquidate your assets to keep from running in the same boat? The same costs, phone bills, all the day-to-day expenses, all the rest.

What is the average Precedence in do? We believe we have the answer in the National Home plan.

Now you can have $500.00 cash coming to you every month -- beginning the very first day you enter the hospital. If it is a sickness and the sixth day for accidents due to either.

The cash is paid directly to you in addition to whatever you may receive from your insurance with any other companies. Use the money as you see fit -- for hospital or doctor bills. To replace worn-out household equipment.

How much does $500.00 a month really amount to? Only $21.60 a week you are saving each week for the six month. After that you continue at your regular wages.

When you choose Coverage for Children, the National Home plans up to the rate of $150.00 a month cash when any of your children is hospitalized. Pay as long as necessary! Children are covered for Accident

National Home Health Plan
National Home Life Insurance Company
Adm. Offices: Valley Forge, Pa. 19481
We guarantee never to cancel your protection

no matter how many claims you have... or how old you become... or for any reason whatsoever.

Premiums are the same for the first day and for sickness from the sixth day.

If both husband and wife are insured for the entire period of pregnancy (and have added Coverage for Children and Maternity Benefits), you get four times each to use any way you want. Yes, if a pregnancy, childbirth or even miscarriage pays you in the hospital for one day, five days, ten days— as long as necessary—you get cash boroughs for every day of your confinement.

How comforting it is to know that— after your stay in the hospital, if you've been there five days or more— for which you received benefits—you can return home to recuperate and yet not be a burden to your loved ones. If your doctor has you employ a full-time registered nurse within 5 days after you come home, we'll pay you benefits at the rate of $400.00 a month. And your benefits continue for the same number of covered days that you were in the hospital—even up to 12 full months.

We guarantee never to cancel your protection

because of how old you become... or how many claims you have... but only if there is a general rate adjustment on all policies of this class in your entire state.

Yours truly,

We guarantee never to cancel your protection

because of how old you become... or how many claims you have... but only if there is a general rate adjustment on all policies of this class in your entire state.

25¢ covers you the first month. Then continue your protection at monthly rates as low as $2.95.

In addition, our Company has a RECOMMENDED rating from Best's Insurance Reports, one of the foremost insurance authorities in the nation.

First, Reliable Life Assurance

"We were more pleased with the prompt way that you were on the claim when unexpected. Your check for the week my husband was in the hospital was received the next day. Thank you so much—it really helped in a time of need."

Jane E. Morgan, Kansas City, Mo.

"I took out the policy 18 years ago in a monthly premium when I was expecting my first child. I did not use the hospital when the birth was normal, but the National Home paid my premiums when the baby was born in an emergency. I am very happy with the policy, and I think it is a good buy for the money."

Dorothy F. Fjeld, Upper Sandusky, Ohi

Why must you get out before the data are used by your Enrollment Form— just a few days from today?

Why do we give you 30 days to enroll in the plan? Because this is a limited enrollment offer, we can open the enrollment only during a limited time period—with a few days' notice for everyone. To provide you with whole coverage at these rates, we must receive your Enrollment Form during the same period as all the others.

Here are your low rates.

The following chart shows how little it costs after the first month, to cover yourself, your spouse or any adult dependent. Naturally, if the rates are too low, we can issue you only one policy of this type. Each adult, 15 or over, pays the rate shown for his or her age.

<table>

Only $3.55 more per month covers all your unmarried dependents—children, from the age of 1 month through 18 years. Newborn children are covered automatically at the age of one month— at no additional cost. And then, if you wish, just add $1.55 to that, and you're covered for Maternity Benefits too.

NOTE: The regular monthly premium shown (for age at time of enrollment) will not automatically increase as you pass from one age bracket to the next. Once you have enrolled in this National Home plan, your rates can never be changed because of how much or how often you collect from us— or because of advanced age—but only if there is a general rate adjustment on all policies of this class in your entire state.

Act now— "later" may be too late! Send just $25 for first month's coverage.

TIME IS PRICELESS! Act quickly, 140,000 applications will fill up. Get your Enrollment Form in the mail today—because once you suffer an accident or sickness, it's TOO LATE to buy protection at any cost. That's why we urge you to act today—before the unexpected happens.

Springtime!

Can't you just taste it?
Of course, the Broadway producers, literary agents, all of them are anxious to make money, to get into the big leagues. If they can get into the New York production that "The Three Stooges" is half of, they will make great good and will do a lot of good in the city of New Jersey. Sooner or later, stones will fall into the hands of America. Hollywood, New York, is a creative city, and it is a giver of the three stooges. Nobody who has never been a part of America's creative process can understand the power of the three stooges. Hollywood, New York, is a creative city, and it is a giver of the three stooges. Nobody who has never been a part of America's creative process can understand the power of the three stooges.

Chiswick and New York, with their sick bulls, serious cows, high-minded art, are the two kinds of the three stooges. It is the New York affection that "The Three Stooges" is half of. Captain Susan of the Goldiggers: "Our Lives Are One Huge Tour"

Susan traveled with her band on tour, both on land and sea. She was often seen wearing her gold digger uniform, complete with leather jacket and boots. Her band, the Goldiggers, was known for their energetic performances and their ability to keep the crowd entertained. Susan was the lead singer and was often seen dancing on stage.

The Goldiggers: A Brief History

The Goldiggers were a popular band in the 1950s and 1960s, known for their catchy songs and energetic performances. They were formed in 1958 and quickly gained a following with their hit songs "Goldigger" and "Our Lives Are One Huge Tour." The band was made up of male and female performers, who often wore matching uniforms.

VISIT PENNSYLVANIA.
ALL FIVE OF THEM.

Pennsylvania. The super vacation state. Never heard of it? You're not alone. It's one of the most underplayed vacation states in the country. But when you've seen the mountains, the waterfalls, the historic sites, the art, the culture, you'll realize that Pennsylvanians are the real experts on the state. And they've got it all. And it's all right here.

HONEYMOON PENNSYLVANIA
Six days of romance and relaxation, from the “Honeymoon Capital of the World” to the “Outdoor Capital of the World.”

OUTDOOR PENNSYLVANIA
Nature hikes and scenic drives couldn't be more inviting in Pennsylvania. And the state's major league sports teams will keep you entertained.

HISTORIC PENNSYLVANIA
Visit the sites where it all began. North American Indian reservations, the original Wild West, the birthplace of the Constitution, and the home of the Declaration of Independence.

Visit Pennsylvania. All five of them.

Yellowstone National Park

In 1872, President Ulysses S. Grant signed a bill declaring Yellowstone National Park. The park covers an area of more than 2,200 square miles, and includes a variety of geothermal features, including geysers, hot springs, and mudpots. The park is home to a variety of wildlife, including elk, bison, and wolves.

Yosemite National Park

Located in California’s Sierra Nevada, Yosemite National Park is known for its towering granite cliffs, forested valleys, and stunning waterfalls. The park is home to a variety of wildlife, including bears, deer, and coyotes.

Grand Canyon

The Grand Canyon is a vast and awe-inspiring natural wonder, cut by the Colorado River over millions of years. The park is home to a variety of wildlife, including elk, deer, and birds.

Mendenhall Glacier

Located in Alaska, Mendenhall Glacier is a large and active glacier that is thousands of years old. The glacier is fed by the Mendenhall Lake, and is home to a variety of wildlife, including bears and wolves.

"Get my great American Sleeping Bag"

Two Weeks in Florida—
On Any Family's Budget
By James Joseph

Sightseeing, fishing, "hur" sand. Here's a way to do it without the Miami Beach budget.

The scenic fun on Florida's 59 island parks and 1,000 state beaches is available to any family with a minimum amount of money. For less than $1 a day, you can have "hur" sand and sightseeing wonder in a variety of ways.

Many of Florida's parks have re-created the atmosphere of the 19th century. Many also have rest rooms, drinking fountains, and picnic areas. The state park system is well-stocked with fishing poles, pails, and nets. All the children need is a little imagination.

One park, you might even say on a vacation, is the Everglades National Park. Here, you can see many of the world's most beautiful birds and wildlife. You can also enjoy the airboat tours of the Port Royal, St. Andrew, and Calusa rivers. These tours are run by the State Park Service and are a great way to see the Everglades.

Another great place to visit is the Florida Keys. You can take a cruise to the Keys on a party boat, or you can take a day trip from Miami. Either way, you'll see some of the most beautiful water and wildlife in the world.

The key thing is to plan your trip and see as much of Florida as possible. Even if you only have a few days, you can see a lot of the state's attractions and enjoy the beautiful weather.

Don't forget to take the time to relax and enjoy all the wonderful activities that Florida has to offer. Whether you're a nature lover or a adventure seeker, you'll find something for everyone in Florida.

Tips from a Camping Expert: Where I Go to Avoid the Crowds

By Pete Curns

One of these regions can provide the perfect camping adventure for you this year. Just consider what your family wants to do and see, then look up on road maps and hit the trail.

The high Sierra is one of these remote camping regions where you can avoid the crowds. A well-known northern California region, the High Sierra is awash with alpine lakes, lofty mountains, and an abundance of wildlife. The terrain is rugged and the weather can be unpredictable, but the rewards are well worth the effort.

Why would anybody take ROTC?

"When we all came from war to peace, I wanted to make a return to college. I joined a special program for my brothers and sisters. In ROTC, you join the Army and serve in the reserves. It's really good that you're doing ROTC."

**WELL, WELL**

BY RICHARD ASHBOURNE

A newly married woman, whose husband is a doctor, was surprised to receive a love letter from her husband.

Out of his childhood habit to be in the kitchen.

The letter said, "Please don't be in the kitchen."

The woman replied, "But why?"

The husband replied, "Because I want you to be in the kitchen."

An Old Couple Reelected

Attractive Couples

In 1968, a British newspaper published a list of the ten most attractive couples in the world. The list was based on a survey of experts, and included couples from all over the world. The list was compiled by the Daily Mirror, a British tabloid newspaper. The list included couples such as the Royal Family, and the couple of the year was chosen by the public. The list was intended to be a light-hearted and entertaining feature, and it was well received by readers. The list was updated annually, and it remained a popular feature of the newspaper. The list was not taken seriously by the public, and it was seen as a fun and entertaining way to celebrate the couple's importance. The list was discontinued in the 1990s, and it is no longer published. The list was a popular feature of the newspaper, and it was well received by readers.
